NURSING STUDENT HANDBOOK
2013-2014

Prepared by:

Janet S. Fuller, MSN, RN, CNE
Department Head for Nursing

Reviewed/Revised 6/2013
Welcome to the Department of Nursing at Tri-County Technical College. You have chosen a school committed to offering students opportunities for growth, and a nursing program that is known for its educational strength.

The nursing faculty will be your guide throughout the educational process to prepare you to meet the challenges of a nursing career. You are encouraged to work closely with faculty as instructors and advisors to help you achieve course expectations and program goals.

The purpose of this handbook is to assist you as a nursing student at Tri-County Technical College. You are urged to review the information it contains, and to utilize it for reference regarding Department of Nursing policies and procedures.

Best wishes for a successful academic year.

Janet Fuller,
Nursing Department Head
Associate Degree and Practical Nursing Faculty

The Handbook is updated yearly. Students are required to follow the handbook for the current academic year.

The Associate Degree Nursing and Practical Nursing Programs are accredited by the Accreditation Commission for Education in Nursing (ACEN). The ACEN is a resource for information regarding fees and length of program. They can be reached at the Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326. P. 404.975.5000 F. 404.975.5020

PHILOSOPHY
Associate Degree and Practical Nursing Program

MISSION
The Mission of the Nursing Program is to prepare caring, competent, beginning practitioners who function within the role of the Associate Degree Nurse or Practical Nurse.

VISION
The Associate Degree Nursing or Practical Nursing Programs will be recognized by the community as an accountable, responsive, and quality provider of nursing education. The program will enhance the transference of knowledge, skills, and caring from competent and effective faculty who model nursing professionalism to students by focusing on the holistic learning needs of students. In order to support the goal of meeting the nursing work force needs in the community, the Associate Degree and Practical Nursing Programs will promote faculty development and collaboration to expand its resources for student learning.

Associate Degree Nursing Program

PHILOSOPHY
In keeping with the admissions policy of the institution, the program serves a student population that is diverse in gender, age, race, culture, ethnicity and educational background.

The Nursing Faculty believes that nursing practice provides holistic health care to clients across the life span in diverse settings, taking into consideration the uniqueness and dignity of each individual and his/her special needs. Practice is guided by the ethical and legal framework of nursing which requires each nurse to be accountable for his or her own actions. Evidence practice is also part of the program expectations.

ORGANIZATIONAL FRAMEWORK
The educational program is organized using the Nursing Process with the emphasis on critical thinking to encompass the following major threads:

- Communication
- Psychological and Physiological Needs
- Teaching/Learning

The principles of the Nursing Process form the basis for the development of cognitive, psychomotor, and affective abilities. These include, but are not limited to, intellectual curiosity, critical thinking, judgment, and psychomotor skills as a foundation for life-long learning.

ASSOCIATE DEGREE NURSING PROGRAM OUTCOMES
a. Graduates will meet or exceed the national passing levels on the NCLEX-RN examination on the first attempt.
b. Graduation Rates: 85% of the students that start the first nursing course will complete the program in three years.
c. Within one year of graduation ninety percent of the graduates will be employed or be seeking advanced education.
d. Ninety percent of nursing graduates will indicate satisfaction with the nursing program.
e. Ninety percent of employers will indicate satisfaction with the knowledge and abilities of the graduate nurse.

Revised Philosophy – 03/2006
PRACTICAL NURSING PROGRAM

PHILOSOPHY

The faculty of the Practical Nursing Program supports the philosophy, purpose, and objectives of the College. In addition, the Practical Nursing Program revolves around five important concepts:

• professionalism
• the nursing process
• safety
• communication
• education

Professionalism should be role modeled by faculty as they serve as student advocates in the educational process. Faculty believe that all people should be treated with respect and dignity regardless of age, gender, race, culture, or individual differences.

The nursing process is a problem-solving approach that is utilized throughout any nursing experience and later serves as a blueprint for the NCLEX-PN exam. Competent nurses use this process and effectively communicate each phase.

Safety is always a priority in the provision of healthcare, promotion, and maintenance of health.

Relationships with community partners, students, faculty and staff cohorts, and healthcare team members depend on effective communication. Multi-faceted communication promotes learning and collaboration.

Learning is life-long and should progress from simple to complex and from basic knowledge to critical thinking ability.

PRACTICAL NURSING PROGRAM OUTCOMES:

1. Graduation Rates: 60% of the students that start the first nursing course will complete the program in two years.
2. Graduates will meet or exceed the national passing levels on the NCLEX-PN examination on the first attempt.
3. Within one year of graduation ninety percent of the graduates will be employed or be seeking advanced education.
4. Ninety percent of nursing graduates will indicate satisfaction with the nursing program.
5. Ninety percent of employers will indicate satisfaction with the knowledge and abilities of the graduate nurse.

Revised Philosophy – 03/2006

STUDENT RIGHTS WITH ACCOMPANYING RESPONSIBILITIES
Nursing Students at TCTC have the following rights:

1. To be treated with respect, civility, and dignity, to include receiving answers to questions
   a. To treat the instructor and other students in the class with respect, civility, and dignity
   b. To ask questions in good faith and in as clear a manner as possible

2. To enjoy an orderly and non-distracting classroom environment
   a. Not to distract others in class (“Golden Rule”)
   b. To try sincerely to become interested and engaged in the course material and classroom activities

3. To be treated fairly and equitably as other students
   a. Not to request preferential treatment
   b. To follow course policies
   c. To know and understand the contents of the syllabus and nursing student handbook

4. To receive clear learning objectives
   a. To ask for explanation of any unclear learning objectives

5. To receive appropriate and effective instruction that makes good use of in- and out-of-class time
   a. To come to class on time and prepared, with any homework that is due

6. To receive thorough and prompt feedback on work
   a. To turn in assignments on time
   b. To receive the feedback and follow it

7. To receive accommodations to a learning disability
   a. To bring honest documentation of the disability to the instructor and the university appropriate office
   b. To explain before classes begin what accommodations are needed

8. To have grades and other personal information kept private, as specified in FERPA
   a. Not to gossip about grades
ADMISSION:

1. Admission to the Nursing Department starts with admission to the College. After acceptance to the College the student will be given an advisor in the Nursing Department. It is in the student’s best interest to work with an advisor on course selection and continuation in the program.

Students must meet the following criteria for the Associate Degree Nursing Program:
   a. Participate in an online Updates to Nursing Session
   b. Have a minimum institutional GPA of 2.5
   c. Have minimum TEAS scores
   d. Submit a Nursing Clinical Entry Application by the posted deadline

Students must meet the following criteria for the LPN to RN Transition Nursing Program:
   Apply to the complete list. This is done by submitting the Notice of Completion (NOC) to Fulp 401. The NOC is available on the public site at www.tctc.edu. It requires:
   a. Biological Science I - BIO 101
   b. Anatomy & Physiology I - BIO 210
   c. English Composition I - ENG 101
   d. Probability & Statistics - MAT 120 or Quantitative Reasoning - MAT 103
   e. Published minimum score on the ATI Fundamentals Test
   f. Participation in an online Updates to Nursing Session
   g. Proof of a current, unencumbered SC LPN License
   h. A 2.5 minimum institutional GPA

Students must meet the following criteria for the Practical Nursing Program
   a. Participate in an online Updates to Nursing Session
   b. Have a minimum institutional GPA of 2.0
   c. Have minimum TEAS scores
   d. Submit a Nursing Clinical Entry Application by the posted deadline

2. Students will be notified by e-mail (TCTC e-mail only) of their placement into the program.
   a. Students will pay the non-refundable $100 deposit fee by the required date
   b. Students will attend the mandatory orientation prior to the entry level nursing course.

COMPETITIVE CLINICAL ENTRY

INSTRUCTIONS TO STUDENTS: ASSOCIATE DEGREE AND PRACTICAL NURSING

1. Application for Competitive Clinical Entry
   Study the guidelines and download the Nursing Clinical Entry Application Worksheet.
   a. Point values have been assigned to selected requirements. Each student is allowed to retake a course or test to improve point totals.
b. Submit the printed application to the Nursing Office, Fulp Hall 401 (Health Science Building).

c. Students desiring a clinical seat must submit a Nursing Clinical Entry Application for that semester by the deadline date. The deadline date will be posted on eTC Academic Web and public site at www.tctc.edu.

d. The email address listed on eTC is the address that will be used to contact the student for clinical entry.

e. If the contact information changes, it is the student’s responsibility to make the change to the eTC account and notify the Nursing Office, Fulp Hall, 401.

2. Questions
Kay Rhodes at krhodes2@tctc.edu (Fulp 401) Office phone: 646-1620.
Alternate contact: Laura Thompson (Fulp 404) at lthompso@tctc.edu or 646-1479

GUIDELINES FOR COMPETITIVE CLINICAL ENTRY - ASSOCIATE DEGREE NURSING

1. Students must have completed a minimum of 12 credit hours with an institutional GPA of 2.5 or above to apply.

2. Students must have successfully completed the TEAS test with the following minimum scores:
   - Reading-80%
   - English-70%
   - Math-60%
   - Science-50%
   If students are transferring in TEAS scores, they must be transferred in no later than one week prior to the application deadline.

3. A student must have a minimum of 38 points to apply.

4. Transfer courses must have been evaluated by TCTC Student Records no later than a week prior to any deadlines.

5. Students desiring a clinical seat must submit a Nursing Clinical Entry Application by the deadline date. This includes the Nursing Clinical Entry Application (found at eTC → Get Set Tab) plus any attachments. The deadline date will be posted on the worksheet and Criteria and Instructions on the program information page of the College’s website. Applications will not be accepted after the posted deadline.

6. The student is responsible for the accuracy of the information found on the Nursing Clinical Entry Application as it relates to points earned. For errors or incomplete information about transfer credits or grades, a request must be submitted for review or change, to Student Records one week prior to the application deadline. If the question is about degrees from other colleges not showing, contact Admissions. There are no exceptions to this one week requirement.

7. Incomplete Competitive Clinical Entry applications will not be considered.

8. Applicants with the highest point totals will be offered the majority of seats in the NUR 139 class. If two or more students have the same total points, rank will be based on:
   a. 1) the student’s successful TEAS date
   b. 2) overall GPA
c. 3) the date the Nursing major was declared.

9. The applicants offered competitive entry seats will be removed from the completed TEAS list. Remaining seats in the NUR 139 class will be filled based on the student’s complete TEAS date.

10. To enroll in NUR 139, students must have successfully completed AHS 117, or received a waiver.

11. To get points for a degree, the system must show an awarded degree.

12. To get points for an Associate of Science (AoS), the graduation application must have been submitted to FP 401 and approved by the Nursing Department.
   
a. We will track the completion of the degree with non-graduate letters sent by Student Records. If students have used the AoS to gain entry into the ADN or PN program, and failed to complete the committed courses, the Nursing Department will evaluate whether the awarded points caused the offer of a seat.
   
i. For instance—if a student gained entry with 50 points which included the AoS, and the cut off total is 48, nursing will decide if a student’s seat will be revoked. This could happen if the student’s points for AoS caused their point total to qualify for entry, but actually withdrew from or failed the class(es) that completed the AoS.

13. If a student successfully challenges a course or gets CLEP credit for a course, (s)he will be awarded the point value of a C in that course.

14. Students with AP credit for an applicable course will receive a point equivalent of 3 for a C, 4 for a B or 5 for an A. If a score report is not available, the default will be a C.

It is the intent of the Competitive Clinical Entry process that a student who accepts a seat in a program, remains in that program until the program has been completed, or they are academically withdrawn.

GUIDELINES FOR COMPETITIVE CLINICAL ENTRY - PRACTICAL NURSING

1. Students must have completed a minimum of six credit hours with an institutional GPA of 2.0 or above to apply.

2. Students must have completed the TEAS test with the following minimum score: Achieve the minimum TEAS Adjusted Individual Test Score (AITS) of 50%
   
   If students are transferring in TEAS scores, they must be transferred in no later than one week prior to the application deadline.

3. A student must have a minimum of 34 points to apply.

4. Transfer courses must have been evaluated by TCTC Student Records no later than one week prior to the application deadline.
5. Students desiring a clinical seat must submit a Nursing Clinical Entry Application by the deadline date. This includes the Nursing Clinical Entry Application (found at eTC → Get Set Tab) plus any attachments. The deadline date will be posted on the worksheet and Criteria and Instructions on the Program Information Page of the College’s website. Applications will not be accepted after the posted deadline.

6. The student is responsible for the accuracy of the information found on the Nursing Clinical Entry Application as it relates to points earned. For errors or incomplete information about transfer credits or grades, a request must be submitted for review or change, to Student Records one week prior to the application deadline. If the question is about degrees from other colleges not showing, contact Admissions. There are no exceptions to this one week requirement.

7. Incomplete Competitive Clinical Entry applications will not be considered.

8. Applicants with the highest point totals will be offered the majority of seats in the PNR 110 class. If two or more students have the same total points, rank will be based on:
   a. 1) the student’s successful TEAS date
   b. 2) overall GPA
   c. 3) the date the Practical Nursing major was declared.

9. The applicants offered competitive entry seats will be removed from the completed TEAS list. Remaining seats in the PNR 110 class will be filled based on the student’s complete TEAS date.

10. To enroll in PNR 110, students must have successfully completed AHS 117, or received a waiver.

11. To get points for an Associate Degree, the transcript must show an awarded degree.

12. To get points for an Associate of Science (AoS), the graduation application must have been submitted to FP 401 and approved by the Nursing Department.
   a. We will track the completion of the degree with non-graduate letters sent by Student Records. If students have used the AoS to gain entry into the ADN or PN program, and failed to complete the committed courses, the Nursing Department will evaluate whether the awarded points caused the offer of a seat.
      i. For instance-if a student gained entry with 50 points which included the AoS, and the cut off total is 48, nursing will decide if a student’s seat will be revoked. This could happen if the student’s points for AoS caused their point total to qualify for entry, but actually withdrew from or failed the class(es) that completed the AoS.

13. If a student successfully challenges a course or gets CLEP credit for a course, they will be awarded the point value of a C in that course.

14. Students with AP credit for an applicable course will receive a point equivalent of 3 for a C, 4 for a B or 5 for an A. If a score report is not available, the default will be a C.
It is the intent of the Competitive Clinical Entry process that a student who accepts a seat in a program, remains in that program until the program has been completed, or they are academically withdrawn.

For more information and to see associated handouts, please refer to www.tctc.edu Click Academics and Prepare for a Career.

**AHS 117 REQUIREMENT***

Students entering AHS 117 will be required to meet all clinical agency policies. These include meeting Background Check, Drug Screen, HealthStream, Uniform, and Immunization requirements and deadlines. Failure to do so may result in administrative withdrawal from the course.

AHS 117 Care of Patients is a pre-requisite for PNR 110 and NUR 139. Students who want an exemption for this class should consider the following policy.

Medical Assistant, Surgical Tech, EMT/EMS, and Respiratory Therapist
If a student **has a credential, degree, license** (Medical Assistant, Surgical Tech, EMT/EMS, and Respiratory Therapist) they may contact Laura Thompson for a course exemption appointment via email at lthompso@tctc.edu, or via phone at 864-646-1479. If they successfully demonstrate necessary skills, a form will be completed giving work experience credit.

Students who have experience but no credential, or have an expired credential/training
If a student works in a health care setting, but **has no credential**, they may challenge the course final and demonstrate skills, or take the AHS 117 Patient Care course for a grade. Successful completion of the challenge exam will result in work experience credit. This also applies to CNAs who have an expired certification. (CNA credential is three or more years expired) Please contact Laura Thompson via email at lthompso@tctc.edu, or via phone at 864-646-1479.

Current CNAs and Students who have completed CNA training/PCT
A student who **has a current CNA certification, or a student who has successfully completed the training**, (for example, HS or Corporate and Community Education) can receive work experience credit by providing the training certificate, credential (or transcript) and background check receipt. This training must have been completed within the last two years.

If a student has completed PCT classes (at a SC Technical College), they may receive full credit for the course by submitting a satisfactory grade on the official transcript to Student Records.

Students who wish a waiver for AHS 117 should contact Laura Thompson via email at lthompso@tctc.edu, or via phone at 864-646-1479.

**Fee for a course exemption by challenge exam $75.00***
*Subject to change
**Effective date
ACADEMIC ADVISEMENT

Each student will be assigned a nursing faculty advisor to assist in advisement and scheduling of courses. The student is responsible for scheduling an appointment to be seen by his/her advisor during the early advisement period. Appointments for advisement during this period should be scheduled with one of the Division’s administrative specialists. Students are required to meet with the assigned faculty member prior to each registration period. NO telephone or email advising will take place. This includes faculty assignment of the RAN to allow the student to self-register.

Once an appointment is scheduled, the student is expected to attend the appointment. If the student is unable to attend the student should notify one of the Division’s administrative assistants in advance of the appointment that he/she will not be able to attend.

BACKGROUND CHECKS

All clinical agencies require background checks. The results of the background check may determine if a student is eligible to enter clinical agencies.
1. A student must be able to enter and/or remain in all clinical agencies to progress within a program. Inability to progress within a major for this reason will result in administrative withdrawal from the program.
2. Students are responsible for paying for, and signing any release forms at the start of the initial semester in any clinical course to obtain the background checks.
3. Failure to complete a background check may result in administrative withdrawal from the program. The student needs to go on line to complete this procedure. The check must be done prior to the start of the semester that the student enrolls in a clinical course in the Health Science Division. There are directions for this on-line service in the “Plan My Schedule” section of the “Get Set” tab on eTC.
4. A student must be able to enter and/or remain in all clinical agencies to progress within the program. Inability to progress within a major for this reason will result in administrative withdrawal from the program.

DRUG SCREENS

All of the hospital clinical agencies that are used by the program require that the students be drug screened.
1. Drug screen is a fee attached to the entry level course (NUR 139, Transition, and PNR 110) for both the RN and LPN programs.
2. If a student becomes out of sequence for any reason they will be notified by the Health Education Division Office about paying separately for the drug screen
3. All students will be drug screened at least annually while they are in the program. (NUR 220)
4. The time and date of the drug screening will be sent in an email to the students’ college account from the Health Education Division Office.
5. A positive drug screen will result in removal from the program.
6. Failure to complete the drug screen will be seen as a positive result with subsequent removal from the program.
7. A student must be able to enter and/or remain in all clinical agencies to progress within the program. Inability to progress within a major for this reason will result in administrative withdrawal from the program.
HEALTHSTREAM
All of the hospital clinical agencies that are used by the program require that the students complete HealthStream.
   1. HealthStream is a fee attached to the entry level course (NUR 139 Transition, and PNR 110) for both the RN and LPN programs.
   2. If a student becomes out of sequence for any reason they will be notified by the Health Education Division Office about paying separately for HealthStream.
   3. All students will be required to complete HealthStream annually while they are in the program. (NUR 220)
   4. Failure to complete all assigned HealthStream modules will result in subsequent removal from the program.

TECHNICAL STANDARDS
All students will fill out a Technical Standards form at the beginning of the program. This form outlines the standards that need to be able to be performed in the Health Education Division. If NO is answered to any statement the student will be referred to Student Disability Services for the appropriate accommodations. See Appendix G
PROGRESSION
PROGRESSION CRITERIA

POLICY FOR REPEATING A NURSING COURSE

Grading and Responsibilities

A student must receive a final course grade of “C” or higher in all required general education courses. A student must maintain a cumulative GPA of 2.0 or higher. Each nursing course must be completed with a grade of “C” or higher.

The student must be eligible to attend all clinical agencies.
The student must take all required standardized tests.
The student must validate and maintain CPR and other immunizations as required.

Course Sequence

Nursing courses build on one another and must be taken in the prescribed sequence. Students must follow the sequence of courses as outlined in the curriculum plan. A student may take general education courses prior to the session listed. (See program curriculum for course sequence found at the Nursing pages of www.tctc.edu)

Timeline for Completion

Completion of required Associate Degree Nursing courses must occur within three years of entry into the first nursing course, or competency must be demonstrated. Practical Nursing courses must be completed within two years of entry into the first nursing course or competency must be demonstrated.

Process of Repeating Nursing Courses

Failure of or withdrawal from any nursing course will require the student to submit a Request to Repeat a Nursing Course Form to the Nursing Office Fulp 401. This will include a type-written Plan for Success appeal letter outlining the nursing student’s commitment to retake the course. (This form and instructions are located in Appendix I of this handbook or on both the Associate Degree Nursing and Practical Nursing pages of www.tctc.edu.) The Progression Committee will review and evaluate all requests, to determine an individual’s readiness and/or eligibility to repeat a course.

If determined to be ready and eligible by the Progression Committee, a student may continue in the nursing program. Incomplete submissions will not be considered by the committee.

If the Progression Committee denies the appeal to continue in the Nursing Program, the student will be administratively withdrawn from the program. If a student is administratively withdrawn from a program, s/he must wait two years from the most recent unsuccessful semester to reapply for a seat in the program. This will be done through the Competitive Entry process. The student must meet current catalog requirements to re-apply.

So, if a student had his/her final unsuccessful course in fall 2012, s/he could apply for reentry for fall 2014.
Progression Committee
This committee was formed to assess the student’s readiness, eligibility and commitment to successfully repeat a nursing course. The committee will evaluate each individual student’s Plan for Success appeal letter with the goal of improving retention. The committee consists of a minimum of three current nursing faculty members.

Progression Committee Criteria
After any failure of a nursing course a student must complete a Request to Repeat a Nursing Course Form located at the Nursing pages of www.ttc.edu. This form provides information and instructions to assist the student in writing his/her Plan for Success appeal letter, which will be considered in the committee’s decision. The Progression Committee will consider:

- Individual student’s Plan for Success appeal letter
- GPA
- Instructor recommendations
- Previous failures and/or withdrawals from college courses

revised 5/21/13

SUPPORT COURSE FAILURE
A course grade of "D" or "F" in a general education course that is required for the curriculum will require retaking the course during the next semester the course is available. All co-requisite courses must be completed by the time indicated on the curriculum plan.

Total Program Hours: 68

*All courses scheduled in the curriculum plan must be taken prior to or concurrent with the nursing course scheduled for that term. No concurrent course may be delayed. Any alterations or substitutions to the curriculum plan must be approved by the Department Head and/or Program Coordinator.

**Humanities electives include University Transfer courses in literature, art, music, philosophy, history, 200 level foreign language or HSS 205.

C – class hours per week L – lab hours per week
## CURRICULUM PLAN
### LPN Transition to RN Track

### 1st Semester
- **BIO 101 Biological Science** 3 3 4
- **ENG 101 English Composition I** 3 0 3*
- **XXX Humanities Requirements** 3 0 3*
- **MAT 120 Probability & Statistics OR**
  - **MAT 103 Quantitative Reasoning** 3 0 3*

Total: 13 hours

### 2nd Semester
- **BIO 210 Anatomy & Physiology I** 3 3 4*
- **NUR 145 Physiological Adaptation and Risk Reduction I** 3 3 4***
- **NUR 146 Physiological Adaptation and Risk Reduction II** 3 3 4***
- **NUR 162 Psychiatric and Mental Health Nursing** 3 0 3

Total: 15 hours

### 3rd Semester
- **BIO 211 Anatomy and Physiology II** 3 3 4*
- **BIO 225 Microbiology** 3 3 4*
- **NUR 117 Health Promotions for Family** 0 6 2
- **NUR 158 Health Promotions for Families** 4 0 4
- **PSY 201 General Psychology** 3 0 3*

Total: 17 hours

### 4th Semester
- **NUR 221 Advanced Nursing Concepts** 2 9 5
- **NUR 230 Physical Assessment** 1.5 4.5 3
- **NUR Elective** 3 0 3
- **SPC 205 Public Speaking** 3 0 3*

Total: 14 hours

Total Program Hours: 68

NURSING COURSES

ATTENDANCE POLICY
Attendance and promptness are expected professional behaviors of all nursing students. If a student misses more than 10% of lecture class or clinical, within the enrolled session, then the student may be administratively withdrawn from the course.

Attendance for all clinicals, including skills lab, is expected. All clinical absences must be reported to the clinical instructor and/or facility as soon as possible before the beginning of the clinical experience. Any missed clinical will result in an “Unsatisfactory” for that clinical experience.

Clinical Make-Up
Make-up of clinical or skills lab absences will be at the discretion of the clinical instructor and in consultation with the course coordinator. The clinical make-up may entail alternate times and sites. The ability to make-up clinical cannot be guaranteed.

Exam Make-Up
Absence from an examination is a special circumstance that must be managed according to the following policy.
1. All exams will be made up and may be given in an alternate manner.
2. The student must contact the course coordinator upon returning to school to set up a date for taking the missed exam.
3. Missing a second exam that term will result in administrative withdrawal or a WF for the course.

GRADING SYSTEM
The Associate Degree Nursing Program adheres to the following grading system policy.

The grading scale used by The Associate Degree Nursing program to compute grades is as follows:
A 90 - 100
B 80 - 89
C 78 - 79
D 66 - 77
F < 66
Clinical = Satisfactory/Unsatisfactory

The grading scale used by The Practical Nursing program to compute grades is as follows:
A 90 - 100
B 80 - 89
C 75 - 79
D 70 - 74
F < 70
Clinical = Satisfactory/Unsatisfactory

All written assignments are due on the date and time stipulated. Assignments submitted after the due date and time will have 5 points deducted for each day late.
EVALUATION
1. Theory Component
   A. Complete scheduled unit exams with a C or higher.
   B. Complete any assigned standardized testing.
2. Clinical Component
   A. Satisfactory on all Clinical Outcomes
3. Course Grade
   A. To receive a passing grade the student must have both:
      1. An overall theory grade of C or higher.
      2. A satisfactory on all clinical outcomes.
   B. A student receiving an unsatisfactory in clinical will be unable to complete the course requirements.

EXAM GRADES
1. Unit exam grades will be given to the students at the next class meeting or posted on BlackBoard. Students have 2 work days from the time grades are published to make an appointment with teaching faculty to discuss the grade. At that point the grade will be recorded, and will not be subject to challenge.
2. Exam reviews will be conducted at the discretion of the teaching faculty. The students will not have access to the exam booklet except in the faculty office.
3. Final exam grades will not be posted or given to the students until the final grade for the course is posted in the computer system.
4. Dosage Calculation Exam
   A. The first dosage calculation test will be a percentage of the overall course grade.
      i. If the grade is 90% or higher then the student receives credit.
      ii. If the student does not achieve 90% on the first test
         1. The student will be given another dosage calculation test after remediation.
         2. The second dosage calculation test grade will not be used as credit towards the course grade.
   B. To continue in the course the second dosage calculation test grade will need to be 90% or higher.
   C. Students that are required to take the second dosage calculation test and DO NOT achieve a minimum of 90% will receive an unsatisfactory in clinical and will not be able to complete the course requirements.

CONFIDENTIALITY
All nursing students may be required to sign a confidentiality statement related to clinical agencies. The student is expected to comply with the terms of the statement throughout the nursing program. (Failure to comply provides grounds for the inability to progress in the nursing course in which the incident occurs.) All students are expected to comply with HIPAA guidelines as stipulated by clinical agencies.
IMMUNIZATIONS AND CPR
All students entering the nursing sequence are required to submit a current, complete, and accurate immunization form. (see appendix B). Students must update the information as needed.

This information should be submitted by the deadline provided in the student’s acceptance packet. Entry into the clinical areas WILL NOT be allowed until this requirement is met. Failure to comply will result in removal from the course.

All students entering the nursing sequence must provide documentation of certification in cardiopulmonary resuscitation for the adult, infant, and child, and include AED and choking. CPR certification must remain current throughout the entire proceeding semester. Online CPR certification is prohibited, unless the course includes a demonstration of skills competencies.

CHANGE IN HEALTH STATUS
Documentation of emotional and physical ability to carry out the normal activities of nursing care may be required for continuation in the program if the health status of a student changes following admission to the program. Students are to notify faculty immediately if they have an infectious disease.

POLICY OF TRANSMITTED DISEASES
Nursing students and faculty should be particularly aware of the potential contamination from infectious agents in the health care environment. It is important that everyone be alert to prevent accidental exposure. Since faculty cannot reliably identify all patients with a transmissible disease, especially those in an emergency situation, it follows that health care practitioners should treat all patients at all times as if they were a potential source of infection. This approach includes precautions for contact with patient's blood and body fluids. This is referred to by CDC (Center for Disease Control) as "precautions". Practice of these precautions will ensure protection against HIV (Human Immunodeficiency Virus), the cause of AIDS; HBV (Hepatitis B Virus), the primary cause of viral hepatitis; and all other blood borne infectious agents. Rigorous adherence to these guidelines will be required of all students and faculty.

STANDARDIZED TESTING
Standardized examinations will be scheduled. A fee is required by the testing agency and is attached to the student's tuition as a course-fee. The fee is subject to change. It is the student's responsibility to complete the tests as scheduled. Refer to the course calendar for the testing schedule.
CLINICAL
CLINICAL OUTCOMES:
Clinical outcomes are derived from the stated course objectives. Students are expected to meet each clinical outcome with a satisfactory performance by the end of the course. Selected behaviors are identified for each of the five outcomes. Satisfactory performance on each behavior is expected and will determine satisfactory completion of the outcome.

Rating scale is as follows:
- **Exceeds**: Proficient; self-reliant, able to act completely independently without supportive cues; accurate each time; safe
- **Satisfactory**: Efficient, coordinated, and confident; usually independent or needs occasional supportive cues; accurate each time; safe
- **Progressing**: Skillful in parts of behavior and/or procedure/interventions related to clinical objective; lacks efficiency and coordination; needs occasional verbal and/or physical cues in addition to supportive ones; requests supervision appropriately; safe
- **Unsatisfactory**: Unable to demonstrate behavior and/or procedure/interventions related to the clinical objectives; lacks confidence, coordination and efficiency; needs frequent verbal and physical cues; unprepared; unsafe
- **N/A**: Does not apply

STUDENT RESPONSIBILITIES:
- Each week the student is expected to evaluate his/her own performance on each behavior for each of the clinical outcomes.
- Record date in appropriate section and evaluate self using 4 (Exceeds), 3 (Satisfactory), 2 (Progressing), 1 (Unsatisfactory), or 0 (Not Applicable).
- Evaluation tool is completed through E*Value in accordance with Clinical Instructor deadlines. Please note that the Clinical Instructor cannot perform their part of the evaluation until the student has submitted the evaluation through E*Value to the instructor.
- Incorporate prior learning into planning and administering care.
- Comply with the remediation plan when such is required.
- Under no circumstances are students to leave the clinical facility during their clinical experience. Doing so will be viewed as patient abandonment and result in failure of the course.
- A student will be expected to perform to the level of her/his current license even if they are in a student role.

FACULTY RESPONSIBILITIES:
- Determine accurateness of student’s self-evaluation and through E*Value and evaluate the student using a 4 (Exceeds), 3 (Satisfactory), 2 (Progressing), 1 (Unsatisfactory), or 0 (Not Applicable) for each clinical behavior. Any difference between the student and teacher rating will be discussed in the comment section.
- Evaluate the student’s overall clinical performance as satisfactory or unsatisfactory.
- Provide comments regarding the rating of clinical behaviors and offer the student remediation as needed.
• Conferences with students are scheduled as required - mid-semester evaluation conference will be scheduled for each student (for students enrolled in full semester courses) as deemed necessary by the clinical instructor. Evaluation will address progression toward meeting the clinical outcomes.
• Student will have a conference at the end of the course in which they will receive a clinical grade of satisfactory or unsatisfactory

OUTCOMES OF UNSATISFACTORY PERFORMANCE:
• Students who receive a 1 (Unsatisfactory) or 2 (progressing) on any behavior are expected to show improvement the following clinical.
• Students with a 1 (Unsatisfactory) for a given behavior(s) may require remediation. The faculty member and student will discuss the options and write a plan of action. The plan will be documented in E*Value.
• If remediation is required, the student will not be allowed to return to the clinical area until the remediation is complete.
• A continued “Unsatisfactory” rating in the “Overall Performance” section on clinical performance evaluations may result in clinical failure for the course.

Other considerations: Any student exhibiting unprofessional/unsafe behavior may be dismissed from clinical immediately and fail the clinical portion of the course. These include but are not limited to:
• Unsafe acts
• Repeated medication errors
• Violating confidentiality
• Being unprepared for clinical
• Not completing or turning in clinical paperwork on time
• Failure to demonstrate progression in clinical performance
• Failure to report significant changes in client status
• Unprofessional behaviors
• Clinical absence and tardiness, especially without notification

STUDENT FAILS TO PROGRESS IN THE CLINICAL SETTING
It is the goal of the Nursing Program and each clinical instructor to give the nursing student varied and valuable experiences in patient care. An equally important requirement is to provide safe nursing practice for each patient. This requirement is one that both contractual clinical agencies and the College view as priority for patient care.

If a student cannot demonstrate the skills and competencies required for safe practice to pass the clinical component of a nursing course, the Department Head for Nursing in collaboration with the clinical instructor will make the final decision as to whether or not the severity of the clinical deficiencies warrant failure of the course. A sentinel event may warrant withdrawal from the program.

In addition, the student will need to follow the guidelines established in the “Policy for Repeating a Course” to determine if the student will be able to continue in the program. As stated in the College Catalog, a student must be able to enter and/or remain in all clinical agencies to progress within a program.
GUIDELINES FOR COLLEGE LABORATORY

- Laboratory practice sessions are scheduled during open-laboratory time and/or by appointment. Student partners should assist and check each other during non-scheduled practice sessions. Faculty will facilitate learning during the scheduled practice sessions.
- Students are expected to return practice and check-off equipment to appropriate storage areas and to leave units in readiness for the next session. Linen soiled during these times will be laundered by students per faculty instructions.
- Audio-visual materials and equipment are to be used according to instructions, and with care.
- During scheduled check-off sessions, students are expected to perform the psychomotor skill according to the identified criteria WITHOUT faculty assistance. Check-off sessions are evaluation, not practice sessions.
- If a student is unsuccessful on the first attempt at demonstrating competency of a skill, a practice session is to be scheduled with assigned faculty. Following faculty guidance and critique during the practice session, the student will schedule a second session for demonstrating competency. No repeat check-offs are allowed until required practice sessions have been completed. Students will get an “unsatisfactory” on clinical evaluations for each nursing skill they have not successfully completed in check-offs.

TRANSPORTATION

Students are expected to provide their own transportation to and from the clinical agencies. A student having difficulty making these arrangements should contact his/her clinical instructor in advance during the instructor’s scheduled office hours. Car pooling is encouraged.

PROFESSIONAL DRESS STANDARDS

Purpose: The purpose of outlining professional dress parameters is to assist the beginning student in establishing a professional appearance. Projecting a professional image of the Tri-County Technical College nursing student to nurse colleagues and the profession is the responsibility of each student at all times. Those not meeting the dress criteria will be asked to leave the clinical area to make necessary changes. Time missed will be counted as absences. Specific questions or concerns about professional dress should be addressed to the current course faculty member.

Uniform Standards:

The Female Uniform will be:
- Steel Gray pants (no scrub pant cuffs) or white skirt.
- Steel Gray uniform shirt (short sleeves). Tri-County Nursing will be embroidered over the left breast in red thread.
- White hose, or non-patterned white socks (appropriate to uniform chosen)
- Black or White leather duty shoes (must be leather with backs on heels and tops on toes). Tie shoes with solid laces are preferred.
• Black warm-up jacket with college patch for both programs.
• Required undergarments include:
  Bra
  Underpants
  Undergarments should not be visible
• Skirt Length: The hemline for a skirt uniform should extend to a level below the knees (to the bottom of the patella) and be no longer than midcalf.

**The Male Uniform will be:**
• Steel Gray uniform pants (no scrub pant cuffs)
• Steel Gray uniform shirt, (short sleeves). Tri-County will be embroidered above the left breast in red thread.
• White socks, non-patterned
• Black or White leather duty shoes (all leather, with back on heels). Tie shoes with solid laces are preferred.
• Black warm-up jacket with college patch for both programs.
• Required undergarments includes:
  Boxer or jockey shorts
  Undergarments must not be visible
• Pants: The waistband must fasten at the natural waistline.

**Notice for Males and Females:**
• Photo name badges plus hospital supplied ID badges as necessary are to be worn close to the face.
• The black warm-up jacket shall have the college patch neatly sewn on the left breast.
• Uniforms will be clean and neatly pressed.
• Uniforms are to be worn by students when providing nursing care or in campus labs. The uniform is to be worn only in the clinical setting (including simulation lab) and to classes that occur immediately before clinical. At all times students are to wear name tags when in uniform or functioning as a clinical student.
• Warm-up: The black warm-up is to be worn over the uniform or over conventional street clothes when in the clinical facility other than when in uniform.

**Accessories:**
Uniform accessories are a part of each uniform and include the following:
• Watch with sweep second hand
• Photo name badge
• Black pen
• Pocket-size note pad
• Nursing equipment as required by the specific courses, e.g., stethoscope

**Jewelry:**
Only the following jewelry may be worn while in uniform:

- Wedding band - **NO** engagement ring or rings with stones are allowed because of possible patient injury or contamination from bacteria.
- **One** pair of small stud-style earrings – silver, gold, white, or navy may be worn. **NO** dangle or loop earrings or those with stones are allowed.
- No necklaces or bracelets are to be worn.
- No other visible piercings, or “gauging” are permissible.

**Other Apparel:** Outer apparel appropriate to weather conditions should be worn over the uniform to and from the clinical facility. Sweaters are not allowed during clinical practice. Students may wear a grey or white undershirt or turtle neck under the scrub top.

**Clinical Agencies:** Students are expected to follow the dress policy modifications specific to the clinical area, e.g., labor and delivery, nursery, critical care, mental health areas.

**NOTE:** The uniform dress policy guidelines apply as related to dress length; jewelry etc. even when uniform is modified for the agency.

**PERSONAL HYGIENE STANDARD CLEANLINESS:**

**Hair:** Hair must be neat at all times. Hair should be neatly pinned up to keep it off the uniform collar. **NO** un-natural hair color is allowed. Ornamental clips, banana clips, or ribbons are not permitted. Beards and mustaches are to be kept trimmed and neat.

**Fingernails:** Nails should be kept clean and short enough to avoid scratching the patient. They should be no longer than even with fingertips. Only clear or neutral polish may be worn. **No** artificial nails will be worn.

**Fragrances:** Scented lotions and perfume are not recommended in the clinical area. The instructor may mandate the total absence of fragrances in the clinical area. Many individuals are highly sensitive to odors. Additionally, some people are allergic to certain perfumes.

**PROFESSIONAL BEHAVIOR STANDARD:**

**Gum Chewing:** Gum chewing will not be permitted in the clinical facility.

**Smoking and Tobacco Use:** Smoking is not recommended at any time, and will not be permitted prior to or during the clinical day. The odor of cigarettes is offensive to many sick individuals. Additionally, some people are allergic to cigarettes. **Smoke smell on the student’s clothing, hair, or body may be cause to be dismissed from clinical and get an “unsatisfactory” for the day.** Additionally, the use of other tobacco products will not be permitted in the clinical facility.
Drugs: Students will NOT attend clinical if taking medication that impairs their abilities and decision-making skills. This includes alcohol and prescription drugs.

Cell Phones: Cell Phones are not permitted in clinical area or used in class.

Tattoos: Students with tattoos must conform to clinical agency policies.

STUDENT INJURY
1. If a student is injured while in the clinical facility, the injury MAY be covered by Worker's Compensation.
2. Follow the direction on APPENDIX E. This form is also found with the clinical evaluation tool.
3. Procedure for Reporting Potential Exposure: Any incident of potential contamination, including needle sticks, must be reported to and fully documented by the immediate supervisor, college or clinical faculty, and the appropriate college department head and Division Chair.
4. Students who are pregnant or who have immunosuppression validated by a physician must advise the course instructor of their status for safety in clinical assignments (avoiding unnecessary communicable disease exposure).
GRADUATION REQUIREMENTS
NCLEX-RN REVIEW COURSE for ADN Students

Students are required to take an NCLEX-RN review course at the end of the final course in the nursing sequence. The cost is covered through course fees in the program, and will be offered on a Tri-County Technical College Campus. Failure to complete the review will result in a delay in submission of the Letter of Endorsement to the South Carolina Board of Nursing.

GRADUATION REQUIREMENTS

The following criteria must be met for a student to graduate, as set forth by College Policy:

- Submit an “Application for Graduation” form, with appropriate signature from the Business Office indicating payment of the Graduation Application Fee, to the metal box outside FP 404. Letter of Endorsement will not be submitted to the Board of Nursing unless a graduation application has been submitted
- The procedure for Graduation Applications is located in Appendix H.

ELIGIBILITY FOR LICENSURE

Upon successful completion of the program, graduates are eligible to take the licensure examination administered by the State Board of Nursing for South Carolina, and upon satisfactory completion, they will be designated as a Registered Nurse (RN) or Licensed Practical Nurse (LPN). Candidates who have criminal records may be required to appear before the State Board of Nursing which will determine eligibility to write the licensing examination.

Note: Background checks are required at the student’s expense. While in the program, if a student has any criminal conviction more serious than a minor traffic violation, he/she MUST notify the Department Head and State Board of Nursing for South Carolina no later than 90 days prior to the date of program completion (803-896-4550, Columbia, SC). Failure to do so may hold up the permit to test.
PROFESSIONAL BEHAVIOR
PROFESSIONAL BEHAVIOR
Nursing students are required to adhere to the standards of conduct expressed in the American Nurses' Association Code for Nurses.

CODE FOR NURSES
Preamble: The code for nurses is based on belief about the nature of individuals, nursing, health, and society. Recipients and providers of nursing services are viewed as individuals and groups who possess basic rights and responsibilities, and whose values and circumstances command respect at all times. Nursing encompasses the promotion and restoration of health, the prevention of illness, and the alleviation of suffering. The statements of the code and their interpretation provide guidance for conduct and relationships in carrying out nursing responsibilities consistent with the ethical obligations of the profession and quality of nursing care.

- The nurse provides services with respect for human dignity and the uniqueness of the client unrestricted by considerations of social or economic status, personal attributes or the nature of health problems.
- The nurse safeguards the client's right to privacy by judiciously protecting information of a confidential nature.
- The nurse acts to safeguard the client and the public when health care and safety are affected by the incompetent, unethical, or illegal practice of any person.
- The nurse assumes responsibility and accountability for individual nursing judgments and actions.
- The nurse maintains competence in nursing.
- The nurse exercises informed judgment and uses individual competencies and qualifications as criteria in seeking consultations, accepting responsibilities, and delegating nursing activities to others.
- The nurse participates in activities that contribute to the ongoing development of the profession's body of knowledge.
- The nurse participates in the profession's efforts to implement and improve standards of nursing.
- The nurse participates in the profession's efforts to establish and maintain conditions of employment conducive to high quality nursing care.
- The nurse participates in the profession's effort to protect the public from misinformation and misrepresentation and to maintain the integrity of nursing.
- The nurse collaborates with members of the health professions and other citizens in promoting community and national efforts to meet the health needs of the public.

ACADEMIC HONESTY
Students are expected to complete their own work in class and outside of class. Students suspected of cheating on any assignments, class exams, or quizzes will be approached by a faculty member. Students should not loan class written assignments to classmates prior to submitting the work for grading. Plagiarism is a serious form of cheating. Refer to “Academic Integrity,” Tri-County Technical College Catalog

CLASSROOM BEHAVIOR
Guidelines for student behavior when attending class have been established in order to provide an optimal learning environment.

Students are expected to exhibit professional behavior in class and in the laboratory. Respect is to be shown to the instructor, visitors, and fellow members of the class. Disruptive or disrespectful behavior may result in dismissal from the class and count as an unexcused absence.

It is the policy of Tri-County Technical College to provide a healthy, comfortable and productive work environment for students, faculty and staff and to fully comply with the laws governing smoking. Based on this policy and in recognition of the health hazards to non-smokers by involuntary exposure to secondary smoke, smoking is prohibited throughout the college facilities except in designated areas.

Students should not bring children or animals to class. This can create problems for instructors and fellow students. The college does not accept responsibility for minors on campus.

HEALTH EDUCATION DIVISION POLICY ON DISRUPTIVE BEHAVIOR
Disruptive behavior in the classroom or other academic setting is strongly discouraged by the Health Education Division at Tri-County Technical College. Disruptive behavior is defined as any behavior that interferes (disrupts) with the collegiate educational process, college administration, and/or sanctioned college program activities. Determination of a behavior as disruptive is at the discretion of the division faculty or staff and can be dependent on many factors.

Behavior which health education personnel may declare disruptive includes, but is not limited, to the following:
• Entering class late or leaving early (without permission)
• Eating/drinking in class without permission
• Sleeping in class
• Persistent speaking without faculty invitation to do so as part of the learning process
• Inappropriate use of electronic devices
• Disputing the authority of faculty or staff
• Arguing with faculty, staff, or other students
• Electronic communications which are abusive, harassing, or excessive
• Incivility
• Threats of any kind and/or harassment
• Physical or verbal disruptions or assault

Procedure:
Disruptive behavior occurring within and outside the academic setting will be reported to the Dean of Health Education, the appropriate Department Head, and the Dean of Student Development (if deemed serious or repetitive by the Division Dean). Disruptive behavior will be handled according to the Student Code of Conduct as outlined in the College catalog.

Disruptive behavior occurring during academic activities will be addressed using the following procedure. The instructor will inform the student that he/she is disruptive. If the behavior continues or escalates, the instructor will ask the student to leave the activity/class/clinical for the day, possibly resulting in grade penalties for work missed. If the student does not leave, the instructor will call Public Safety to escort the student from campus if necessary. If disruptive behavior occurs during academic activities conducted outside a physical classroom, such as in on-line instruction or during clinical or field trips the instructor may dismiss the student from participation in that activity. If disruptive behavior occurs during a college sanctioned event, the instructor or staff member may dismiss the student from participation in that activity.

Instructors should call Public Safety and the Division Dean immediately if any or the following situations occur.

• A student threatens or intimidates faculty, staff or other students
• A student engages in violent behavior
• Faculty suspect criminal activity
• A situation begins to escalate, such as discussion turning into shouting

The instructor of record will retain documentation of disruptive academic behavior in the student’s file and will meet with the student within 5 business days after the incident. If the disruption is deemed repetitive and/or serious by the Division Dean, the Dean of Student Development will be immediately involved in final disposition and handling of the matter.

The South Carolina Technical College System Policy on alcohol and other drug use has been adopted by Tri-County Technical College in an effort to maintain a drug-free environment. It is of utmost importance that students familiarize themselves with this policy. Specifics regarding the effects of various drugs, the laws which govern their use and penalties for violating these laws are included in the policy.
HEALTH EDUCATION DIVISION POLICY OF SOCIAL AND ELECTRONIC MEDIA

PURPOSE: To provide guidelines outlining how Tri-County Technical College Health Education (HE) students (ADN, PNR, VET, MLT, MED, EDDA, SUR) support area clinical agencies, physician offices, and the division in terms of knowing boundaries of appropriate communication with social media (HIPAA, FERPA)

Students are prohibited from posting any comment that is personal health information including patient images on any social media site. Posting of veterinary-related images must be approved by the Veterinary Technology Department Head in advance.

The use of social media provides the ability for students to communicate with their peers in an expedient and even real-time basis. However, students should understand that publishing information on a social media site may be public, can be shared by others and is searchable in order to trace activity back to them as individuals for long periods of time. If a student provides identification that he/she is a Tri-County Technical College student, public perception expands beyond the individual student to the program, division and the College. Examples of social media include, but are not limited to,

- YouTube
- Facebook
- ITunes
- LinkedIn
- Twitter
- Blogs (except for course or College approved platforms such a Blackboard with faculty oversight)

Students in all areas of Health Education are preparing for professions which provide services to the public who expect high standards of care and in the handling of confidential information. Therefore, students should be constantly aware of HIPAA and or FERPA guidelines which require that confidential information related to patients or agencies/offices must not be disclosed. Students may be personally as well as legally responsible for anything that they post on social media sites. In addition, potential employers now commonly utilize analysis of public personal web sites as a determination of possible job offers.

PDA USE

PDA’s can provide students with quick and easy access to up-to-date evidenced-based information in both the classroom and clinical setting. However, PDA use must be appropriate and within established guidelines by an instructor/clinical agency. HIPAA/FERPA guidelines still apply. During clinical and class time, it is expected that any PDA be utilized only when expressly authorized by TCTC faculty. If the PDA is combined with a cell phone, the cell phone should be silenced. No personal conversation or texting is allowed at any time in a patient/animal care area. Please remember that in patient areas, PDA’s may act as a reservoir for microorganisms and have the potential to deleteriously affect immunocompromised patients. Misuse of electronic devices can be interpreted
as a classroom or clinical disruption and students may be dismissed by the instructor (See TCTC Student Code of Conduct).

**eTC Accounts**
Tri-County Technical College (TCTC) uses email as one of several means of communication with HE students. An official eTC email address is issued to each student at the time of admission to the College. This is the only email address that the College maintains for sending official communications to students. Students must check email on a regular basis (at least three times a week) in order to read important e-mail messages and notifications/announcements in a timely manner. In addition, certain communications may be time-sensitive, i.e. drug testing dates. Failure to read official College communications sent to the student's official eTC email address does not absolve the student from knowing and complying with the content of those communications.

Each HE student must manage his/her College email account to assure that the Inbox file has sufficient space to allow for email delivery. Students who choose to forward their eTC account email to another email address risk not receiving important official emails from the College. The HE Division will not be responsible for the non-receipt of any official communication that has been forwarded by a student to another email account.

**RESPONSIBLE USE OF COMPUTER TECHNOLOGY AND SOCIAL MEDIA IN HEALTH EDUCATION**
All forms of communication and behavior that are conducted in an electronic environment (TCTC procedure titled “External Communications” 1-2-1024.1) demand the same adherence to rules that provide expected levels of civility, safety, privacy, and respect. Students are, therefore, expected to govern their “electronic” behavior (social media) with the same care and self-control they exhibit face-to-face with patients, peers, instructors, and clinical employees.

**FACULTY/STAFF OFFICES**
A faculty/staff office should never be entered if the faculty or staff member is not present unless a student has been specifically instructed to do so. For convenience, faculty doors are often left unlocked. However, an unlocked door without a faculty occupant should never be interpreted as a “welcome sign.” Students should leave any papers, notebooks etc. in folders outside the faculty doors. All appointments with faculty should be made through one of the Division’s administrative assistants.
MISCELLANEOUS
SCANTRON USE

Nullification of Test Questions

When grading tests, the following procedure is used by the Tri-County Technical College Nursing Faculty:

1. A SCANTRON key for the test is scanned and programmed into the computer.
2. Each individual student’s SCANTRON sheet is scanned into the computer using the key for that particular test. The computer scores each test individually.
3. After ALL student SCANTRON sheets have been run, the computer is asked to perform an item analysis for each question. Each question is reviewed using standardized statistical procedures generated by the computer program.
4. If a question is nullified (declared null and void) by the faculty based on the outcome of the test item analysis, the question is no longer considered a part of the test. All students receive the full value of the question to benefit the student.

Example: If 2 (two) questions on a 50 question test were nullified, the student would receive 4 (four) points for the nullified questions. If 2 (two) questions on a 50 question test were thrown out, the test would then be graded as a 48 question test, making each question worth 2.1 points each.

5. After the test, students will receive individual sheets with their score. The students will be asked to sign the score sheet and will have 5 (five) instructional days to discuss a disputed test grade with the course coordinator. After that time the grade is recorded.

Note: Appointments must be made with the course coordinator to discuss the test grade.

6. If the test has questions that contain math, free writing, or extra credit, those points are added to the grade by hand, and will be written on the student’s score sheet. The students will be asked to sign the score sheet and will have 5 (five) instructional days to discuss a disputed test grade with the course coordinator. After that time the grade is recorded.

Note: Appointments must be made with the course coordinator to discuss the test grade.

7. If a multiple answer question (example: select all that apply) is on the test, the student must select all of the correct responses to get credit for the question.

PERMISSION TO COPY STUDENT WORK

The faculty may copy work submitted by students. Copies are made when deemed necessary to maintain permanent records of papers upon which course grades and/or clinical evaluations are based and/or papers which demonstrate a high level of originality and preparation.
MALPRACTICE INSURANCE
All Nursing students are required to purchase, through the college, malpractice insurance each year as part of their student fees. However, proof of personal malpractice policies in effect will suffice. The minimum amount of coverage required is $1,000,000 per incident with an aggregate of $3,000,000. The approximate cost of this coverage is $5.00/clinical course. This amount is subject to change without notice.

FIRE EMERGENCIES
A Tri-County Technical College Procedure has been developed to guide students and faculty in the appropriate and safe way to respond to fire emergencies. The procedure can be found in the college handbook. Please read this policy.

NURSING DEPARTMENT COMMITTEES

Curriculum Committee (ADN):
Purpose: The purpose of this committee shall be to coordinate, research, develop, and implement the curriculum.

Membership: Membership shall consist of at least three faculty members and two students (1 freshman; 1 senior).
Ex-officio: Department Head of Associate Degree Nursing.

Program Evaluation Committee:
Purpose: To evaluate all aspects of the program for reflection of the Mission and Philosophy of the College and the ADN Department.

Membership: Membership shall consist of at least two faculty members and two students - 1 freshman, 1 senior

Advisory Board:
Purpose: To provide input from the community to the nursing programs.

Membership: Department Head, Program Coordinators, 1 ADN student, 1 PN student. Community members invited to serve.

Program Progression Committee:
Purpose: To evaluate all aspects of program progression for reflection of the Mission and Philosophy of the College and the Nursing Department.

Membership: Membership shall consist of at least three faculty members.
CAMPUS ACTIVITIES
All students have the opportunity and are encouraged to participate in student organizations and associations. In addition, special meetings and events of interest to students may be scheduled during the scheduled college activity hours. (E.g. guest speakers, entertainment groups, and student talent shows)

STUDENT NURSES ASSOCIATION
Students are strongly encouraged to join the Student Nurses Association (SNA) at the local, state and national levels. SNA is a pre-professional organization, and the only one that is run by nursing students.

Eligibility:
• Any student enrolled in a state approved program preparing for registered nurse licensure
• A pre-nursing student (also LPN) is eligible for membership
• RN faculty teaching in a program preparing students for registered nurse licensure

Dues: Currently the membership dues are approximately $40.00 1st year or $70 for two years at National, State, and Local levels.

Benefits:
• Free subscription to Imprint published by NSNA
• NSNA Foundation Scholarship Program
• Career Planning Guide
• Reduced rate/discounts on textbooks, magazines, uniforms, etc
• Half price discount for NSNA Survival Guide
• A voice in Washington, DC on legislation which affects the future of nursing and education for nursing
• Eligibility to attend State Fall Workshop and State Conventions, and the NSNA Convention annually

FINANCIAL RESOURCES
All financial support is handled through the Financial Aid Office. However, students who are experiencing acute unforeseen financial difficulties should IMMEDIATELY consult your advisor or the Student Life and Counseling Office located in Miller Hall.

STUDENT EMPLOYMENT
The need for students to work in order to help finance their education is recognized. However, students are strongly discouraged from working 11 p.m. - 7 a.m. when they have classes or clinical labs the next day. Being over tired is a safety issue in the clinical area. It is recommended that students limit work to 20 hours per week or less. Education must take priority in the students' energies and loyalties to ensure both the safety of assigned patients and adequate preparation/participation in class. Due to safety concerns in providing nursing care, students who work a
night-shift prior to their clinical day will be dismissed from clinical to prevent harm or injury to the patients.

INSURANCE
Students are covered by Tri-County Tech Worker Compensation for work related injuries. Individual Health insurance is strongly advised; the College disclaims any medical coverage except that which is covered under Worker Compensation.

STUDENT SERVICES

CAREER SERVICES
The Career Services Office offers students and graduates a variety of services, including the following:

- **Career Counseling Services**: Assists students and graduates in understanding their potential, interests, attitudes, and personal values as they apply to career planning. Career information, career assessment, and computerized guidance are available.
- **Job Placement Assistance**: Assists students and graduates in obtaining employment in area businesses and industries through an online job placement system. Assistance with interviewing techniques, resume writing, and job-search strategies is provided.
- **Cooperative Education**: Integrates the classroom and the workplace by providing students with classroom training and related work experience through local employers when available.

(864) 646-1577
Toll-free number (within 864 area code): 1-866-269-5677 x1577

Pendleton Campus:
Location: Miller Hall, Room 140
Office Hours: Monday - Thursday: 8:00 AM to 5:00 PM; Friday: 8:00 AM to 2:00 PM

Easley Campus: Available by appointment.

STUDENT LIFE AND COUNSELING
Student Life and Counseling Services provides opportunities for student engagement and assistance to students experiencing barriers to success. In order to facilitate success, staff members may refer students to resources both on and off campus. In addition, students also have access to free professional counseling through the Student Assistance Program (800) 950-3434). Students experiencing difficulties with any aspects of the College experience are
encouraged to visit or contact the Student Life and Counseling Services Office, Pendleton Campus, Student Center, Suite 155, 864-646-1569.

Student Disabilities Services provides services for students who have disabilities. Students needing assistance in participating in College programs should contact the Disabilities Services Coordinator in the Office of Student Life and Counseling Services on the Pendleton Campus, Student Center Suite 155, or call 864-646-1564 at least 30 days prior to the first day of classes. Students on the satellite campuses may schedule an appointment with the disabilities coordinator on the satellite campus.

**STUDENT RECORDS**

Students needing assistance with or having questions regarding Student Records should contact them at the appropriate campus location.

Instructions for Immunization Record Form

A minimum of a month, day, and year is required for each item listed in the Immunization History.

CPR
Healthcare provider CPR is required, which includes adult, infant, and children CPR with AED and choking. Online CPR Certification or recertification is not acceptable.

Chickenpox (Varicella)
Proof of Immunity must be determined either with proof of immunization (2 administrations), or titer (blood test) showing positive immunity. History of disease is not sufficient.

Flu
A Flu vaccination is required annually each fall. No titer can be used for this vaccination.

Hepatitis B Vaccinations
Either the series of three vaccinations must be completed or a blood screen must be performed showing immunity. The normal course of administration is one month between the first and second administrations, with the third administration following five months after the second.

MMR (Measles, Mumps, Rubella)
Proof of Immunity must be determined either with proof of immunization, or titer (blood test) showing positive immunity. If born prior to 1957, documentation of one MMR, or live virus vaccine must be provided. If born on or after January 1, 1957, documentation of receipt of two doses MMR must be provided.

Tetanus
Tetanus vaccination is required and must be renewed every ten years. No titer can be used for this vaccination.

TB Skin Test
A two-step TB Skin Tests (PPD) is required for all Health Education students. If a positive skin test occurs, the student will need to have a chest x-ray completed showing that the student has no evidence of TB. Chest x-rays must be repeated every five years.

Academic Progression

Student Name______________________    Date___________________
Course____________________________

Grades for the course at present:

I understand that I currently have the following grade at mid-course: _______

Options:

I have met with the faculty for the course and understand what I need to do to help in my success. These may include but are not limited to:
   1. Look at the number of hours that I work.
   2. Evaluate the way that I study.
   3. Look at who I study with.
   4. Look at what has made me successful in the past and is it working now?

I understand that I am required to meet with the Nursing Tutor.

I acknowledge that I have seen and understand my present mid-term grade; options and suggestions have been discussed with me.

All aspects of the course ____________________, including course and clinical objectives, course policies (including attendance) and evaluation criteria have been explained and/or clarified to my satisfaction.

I am aware of and understand the consequences should I not meet the course requirements, including immunization requirements and deadlines, or abide by course policies as outlined in the syllabus or referenced in the Nursing Student Handbook.

I am aware that the Nursing Student Handbook is available on the College website and understand the following policies:

- Progression Criteria
- Scantron Use
- Social Media

I also understand the course is managed at the discretion of the nursing instructors.

Tri-County Technical College
Worker’s Compensation
Injury Protocol

- As soon as the injury occurs, call CompEndium at 1-877-709-2667

- Give your name and company name (Tri-County Technical College) and tell the operator that you have an injury to report.

- A medical manager nurse consultant will take your call and ask the name of the injured worker and specific questions about the accident.

- CompEndium will assist the injured worker in selecting a physician and scheduling an appointment or will direct the injured worker to the emergency room (ER).

- CompEndium will notify the physician or the ER of the injury and the arrival of the injured worker.

- The physician or the ER will call CompEndium before the injured worker leaves the facility to receive authorization for treatment.

- Immediately following, the medical manager nurse consultant will call with a report on the status of the employee’s condition and work status.

- The physician’s report/case notes will be faxed within 24 hours of receipt of treatment.

- CompEndium Nurses are available 24 hours a day – 7 days a week at 1-877-709-2667, Fax 1-877-710-2667.

I, the undersigned, acknowledge that I have received the above notice of the Worker’s Compensation Injury Protocol for Tri-County Technical College and am aware of what steps I should take in the event of an injury.

APPENDIX G

TRI-COUNTY TECHNICAL COLLEGE
HEALTH EDUCATION DIVISION
TECHNICAL STANDARDS

Required of all Health Education Division Students for Admission and Progression in a Health Sciences Program

Applicants and students should be able to perform these essential functions or with reasonable accommodations, such as the help of compensatory techniques and/or assistive devices and be able to demonstrate ability to become proficient in these essential functions.

<table>
<thead>
<tr>
<th>Essential Function</th>
<th>Technical Standard</th>
<th>Some Examples Of Necessary Activities (not all inclusive)</th>
<th>YES</th>
<th>NO</th>
</tr>
</thead>
<tbody>
<tr>
<td>Critical Thinking</td>
<td>Critical thinking and problem solving ability sufficient for appropriate clinical judgment.</td>
<td>Identify cause-effect relationships in clinical situations, use problem solving methods to assess, plan, carry out, and evaluate nursing or allied health care. Make appropriate judgment decisions in an emergency or where a situation is not clearly governed by specific guidelines.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Interpersonal Skills</td>
<td>Sufficient to interact with individuals, families, and groups from a variety of social, emotional, cultural, and intellectual backgrounds.</td>
<td>Establish and maintain effective working relationship with patients, peers, the public and clinical and college personnel.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Communication Ability</td>
<td>Sufficient for interaction with others in verbal and written form. Read, write and speak with sufficient skill to communicate. Computer literacy desirable.</td>
<td>Communicate, in fluent English, both verbally and in writing with the patient, family, college, and hospital personnel, to transmit and receive information. Hear verbal responses from the patient, and hospital personnel while performing appropriate procedures.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Physical/Psychological Ability</td>
<td>Remain continuously on task for several hours while standing, sitting, walking, lifting, bending and/or transporting patients/clients.</td>
<td>Very mobile and able to tolerate long periods of standing, sitting, and heavy work load. Lift and/or move patients and equipment. Withstand the stress and demands of an active position. Refrain from nourishment or restroom breaks for periods up to 6 hours.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Skin Condition</td>
<td>Skin must be in good condition. Lesions on the face, hands, or forearms, will prevent student from attending clinical (examples include but are not limited to: psoriasis, eczema, etc.)</td>
<td>Perform hand washing and/or surgical scrub and wear appropriate gloves. (A written excuse from a physician is mandatory for students who are latex sensitive.)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Adequate Height</td>
<td>Ability to reach and operate overhead equipment.</td>
<td>Reach, manipulate, and operate all equipment.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Mobility</td>
<td>Physical abilities sufficient to move from area to area and maneuver in small spaces; full range of motion; manual and finger dexterity; and hand-eye coordination.</td>
<td>May be exposed to kicking, biting or scratching injuries. May be exposed to equipment-related hazards. Withstand long hours of standing, walking, stooping, bending, and sitting.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Motor Skills</td>
<td>Gross and fine motor abilities sufficient to provide safe and effective care of clients and operate equipment. Ability to reach and operate overhead equipment.</td>
<td>Demonstrate manual dexterity and good eye-hand coordination in daily work. Be able to lift independently up to 50 pounds. May be required to lift greater weights on demand. Reach above head at least 18 inches.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Hearing Ability</td>
<td>Auditory ability sufficient to access non-direct essential information.</td>
<td>Must be able to hear and understand verbal instructions. Must be able to hear soft whispers of clients, equipment alarms, equipment malfunctioning sounds and emergency signals within normal hearing range. Must be able to tolerate loud, sustained, high pitched noises. If corrective hearing devices are required, must be worn while on duty.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Visual Ability</td>
<td>Normal or corrected visual ability sufficient for observing, assessment and/or treatment of patient/client; ability to discriminate between subtle changes in density (black to gray) of a color in low light/ability to discern color variations.</td>

Revised 2/2011
ADN Graduates Please Note

It is important to submit your ADN graduation application even if you don’t plan to participate in graduation.

The graduation application must be submitted to the metal lockbox outside FP 404 for an endorsement for NCLEX-RN to be submitted.

And-

Many employers require a transcript showing proof you have an ADN.*

ADN Graduation Application

A. Must be paid for and submitted to the metal lockbox outside FP 404 by the application deadline date *
   1. See Academic Calendar on eTC.
   2. See Student Announcements on eTC
   3. If you have previously submitted an application but did not graduate for any reason, you must submit a new application, signed by the Business Office/Cashier, but you do not have to pay again.

B. You will receive an email verifying your graduation application submission to Student Records
   1. This email will come from Kay Rhodes within 21 days after the application deadline date
   2. If you don’t receive this email verifying your application was received in Student Records, please contact Kay Rhodes Krhodes2@tctc.edu

* A late application fee payment will cause the application to automatically be moved to the next graduation.

Effective 2/14/2012
Revised 5/27/13
Dear Student,

We know failing to progress in the nursing program is a great disappointment. You have worked hard to get here.

The nursing department takes student failures very seriously. Students who repeat a course without a plan to make adjustments, are less likely to be successful on the second attempt.

For this reason, you are allowed to write a Plan for Success appeal letter requesting to return to the program, using the directions below. Your Plan for Success appeal letter will be reviewed by the nursing program’s Progression Committee.

The Progression Committee was formed to identify students whose retention in the Nursing Program is at risk.

The committee will use your appeal letter, information shared by other instructors, and your transcript to evaluate your eligibility and readiness to successfully continue in the program. Please take time and care in creating this Plan for Success appeal letter. The faculty members who form the Progression Committee will be looking for sincere and reflective requests.

The Progression Committee will make the determination of eligibility.

ALL decisions are final.

Student Directions:

- Create your type-written Plan for Success appeal letter. This is a document you will write-described here.
- In this plan, describe the changes you will make for future success.
- Identify reasons that contributed to your poor performance and state how you will remedy or minimize these influences if allowed to retake the course.
- Attach your Plan for Success appeal letter to the form called Request to Repeat a Nursing Course—a link in the Student Handbook of www.tctc.edu at Progression Criteria. (See next page.)
- Incomplete forms will not be considered by the committee

Submit both documents (in person or electronically) to the Nursing Office, Fulp 401 to request to re-enter nursing.

You will receive next-step instructions by email.
Request to Repeat a Nursing Course/Program
