

Accounting

Accounting is a highly respected career and one that is always in demand. Every organization, large and small, needs accounting services; therefore, opportunities in this field are always popular.

As an accounting employee, you'll need to know how to examine financial statements, accounting books, and procedures for accuracy, compliance, and efficiencies. To excel in this field, you'll need to have a keen attention to detail and independent thinking. Your coursework will teach you the fundamentals in a variety of areas, including accounts receivable, accounts payable, tax, payroll, cost accounting, and much more, to help you thrive in your future jobs.

With training in accounting principles and business practices, you'll have the skills to work in any type of accounting

department—small firms, large corporate offices, not-for-profit organizations, manufacturing environments, healthcare settings, and beyond.

We offer an Associate in Applied Science Degree in Accounting, an Associate in Applied Science Degree in Accounting with an Office Specialist Emphasis, and a Bookkeeping Certificate. Each of these credentials provides training in the accounting and computer skills needed in today's modern office. You'll also develop communication and problem-solving skills along the way to give you the knowledge that's in great demand from a wide variety of our area business and industry partners

Learn more about program requirements and related certificates. Scroll to the degree program and select "display programs."

PLUS

A small student to instructor ratio allows for more personalized instruction.

Hands-on experience in the classroom is offered on the most up-to-date software programs.

A bookkeeping certificate stacks into the office specialist emphasis, enabling students to choose a pathway in the field that best suits them.
