

Semester GPA Worksheet

1. In the first column below, list the Bridge-eligible courses in which you are enrolled for the fall semester. With the exception of MAT 101 and MAT 102, do not include any other non-transferable courses. As a reminder, while courses in which you earn a grade of "D" or a grade of "F" will count in your GPA, they will not be eligible for earned transfer credit at Clemson (course transferability can be reviewed in the *Bridge Student Academic Guide*).

In the next column, project the letter grade you think you will earn for each Bridge-eligible course. Make sure to be realistic and honestly assess the grade you think you will earn in the course.

In the next column, list the number of credit hours each course is worth. For example, ENG 101 is worth a total of 3 credit hours. Typically, courses with lab components, such as BIO 101, would be worth 4 credit hours.

Next, enter the quality points listed below that are equivalent to that letter grade. For example, if you think you will earn a grade of "C" in ENG 101 that would serve as a total of 2 quality points.

Quality Points
A's = 4
B's = 3
C's = 2
D's = 1
F's = 0

Next, multiply the credit hours attempted by the quality points. For example, if are currently taking ENG 101 and you think you will earn a grade of "C" in the course, you would multiply 3 (credit hours for the course) by 2 (quality points for a grade of "C") which would earn you a total of 6 projected quality points.

Finally, total the credit hours attempted and the projected quality points and list in the boxes below. These totals reflect the Bridge-eligible credits and quality points you anticipate earning this semester.

Course	Letter Grade	Credits Hours Attempted	x	Quality Points (see box above)	=	Projected Quality Points
_____	_____	_____	x	_____	=	_____
_____	_____	_____	x	_____	=	_____
_____	_____	_____	x	_____	=	_____
_____	_____	_____	x	_____	=	_____
_____	_____	_____	x	_____	=	_____
_____	_____	_____	x	_____	=	_____
TOTALS		<div style="border: 1px solid black; width: 60px; height: 30px; display: inline-block;"></div>			=	<div style="border: 1px solid black; width: 60px; height: 30px; display: inline-block;"></div>

2. Using the Step # 1 totals, divide your total projected quality points by your total credit hours attempted. This equals the GPA from Bridge-eligible courses earned at the end of the fall semester.

$$\begin{array}{ccccccc}
 \textit{Total Projected Quality Points} & \div & \textit{Total Credit Hours Attempted} & = & \textit{Projected Cumulative Bridge GPA} \\
 \hline
 & \div & & = &
 \end{array}$$

Cumulative (Academic Year) GPA Worksheet

1. To calculate your total academic year GPA for both your fall and spring semester, you would follow the same steps as listed on the previous worksheet. First, rewrite your fall semester calculation below with the total credit hours attempted and the projected quality points and list in the boxes below.

Fall Semester

<i>Course</i>	<i>Letter Grade</i>	<i>Credits Hours Attempted</i>	<i>Quality Points (see box above)</i>	<i>Projected Quality Points</i>
_____	_____	_____	x	= _____
_____	_____	_____	x	= _____
_____	_____	_____	x	= _____
_____	_____	_____	x	= _____
_____	_____	_____	x	= _____
_____	_____	_____	x	= _____
TOTALS		<input style="width: 50px; height: 20px;" type="text"/>		<input style="width: 50px; height: 20px;" type="text"/>

2. Next, follow the same steps listed on the previous worksheet and complete your spring semester GPA calculation below. Make sure to total the credit hours attempted and the projected quality points and list in the boxes below for the spring semester. These totals reflect the Bridge-eligible credits and quality points you anticipate earning for the spring semester.

Spring Semester

<i>Course</i>	<i>Letter Grade</i>	<i>Credits Hours Attempted</i>	<i>Quality Points (see box above)</i>	<i>Projected Quality Points</i>
_____	_____	_____	x	= _____
_____	_____	_____	x	= _____
_____	_____	_____	x	= _____
_____	_____	_____	x	= _____
_____	_____	_____	x	= _____
_____	_____	_____	x	= _____
TOTALS		<input style="width: 50px; height: 20px;" type="text"/>		<input style="width: 50px; height: 20px;" type="text"/>

3. Next, add your total credit hours attempted and project quality points for both the fall and spring semester and list in the boxes below.

Total Cumulative Credit Hours Attempted
Total Projected Cumulative Quality Points

4. Finally, divide your total projected cumulative quality points by your total cumulative credit hours attempted. This equals your cumulative GPA from Bridge-eligible courses earned at the end of your Bridge academic year.

$$\begin{array}{ccccccc}
 \textit{Total Projected Quality Points} & \div & \textit{Total Credit Hours Attempted} & = & \textit{Projected Cumulative Bridge GPA} \\
 \text{_____} & & \text{_____} & & \text{_____} \\
 & \div & & = &
 \end{array}$$

5. Repeat worksheet if factoring TCTC summer courses into cumulative Bridge GPA
