Questions and Answers

Question #1 – Can you confirm the campuses do not have living Kudzu? Due to the dormancy, it is very difficult to assess whether any of your campuses has Kudzu until Spring green up. Per the pre-bid meeting, it was suggested you do not have Kudzu. If Spring shows you do have Kudzu, would the panel be open to negotiating a cost to kill/remove any present Kudzu outside of the contract?

Answer: We are not aware of any kudzu located at any of the satellite campuses. In the past have had some on the Pendleton Campus on the north side of Perimeter Road near the north entrance. We cannot guarantee that there is no kudzu at any of our locations. We would not negotiate an additional cost if there is kudzu at any of our locations because kudzu removal/kill needs to be included in the cost of the contract.

Question #2 –

The RFP suggests maintenance to be performed at campuses other than the main campus during days the school is open. Would it be okay to service these properties when the schools are closed to ensure complete service of all areas including normally inhabited parking spaces during school hours?

Answer: The awarded contractor must adhere to the schedule specified in the Scope of Work/Specifications section of the solicitation for picking up trash and blowing down sidewalks. Mowing, pruning and weeding may be done on Friday afternoons or during the weekends at our other campuses as long as the appearance of those campuses is maintained at an acceptable level in regards to grass height, weeds, etc.

Question #3 –

Would the Supervisor (lead) person from the main campus be able to visit the ITC Building property during regular service hours in a management role only (no labor provided just routine inspections)?

Answer: Yes

Question #4 –
Would mulching the grass clippings be acceptable if evidence was shown that proper mulching is healthier for the turf? (smaller carbon footprint)

Answer: This would be conditionally acceptable, meaning during heavy growth times the mulch will only pile up leaving the turf looking ill-kept having it buried in its own clippings. During these conditions it would have to be bagged and removed from the property.
