Select TEAS Test Info

GPA

Minimum required GPA is 2.5; TCTC GPA supersedes all other GPAs
If a student has no TCTC GPA, the overall transfer GPA will be considered

AHS 117 Patient Care

Each nursing student is recommended to have training in patient care.
You may take AHS 117 Patient Care. A grade of “A” counts five points on your competitive entry.
If you are taking (or have taken) patient care through a CNA program, or have work experience in patient care, you may be eligible for a waiver. Contact: Bailey Woods (864)646-1620 for an appointment. Waivers and challenge exams count two points on your competitive entry.

**NOTE:** All AHS waivers must have been processed one week prior to application deadline. **There are no exceptions to this one week requirement.**

*The complete application worksheet for computing points for the Nursing Clinical Entry Application can be found at [https://www.tctc.edu/programs/career-programs/nursing/](https://www.tctc.edu/programs/career-programs/nursing/)*
