

# Remote Access – FortiClient VPN

FortiClient VPN is a tool that allows Tri-County Technical College employees to access services and applications remotely.

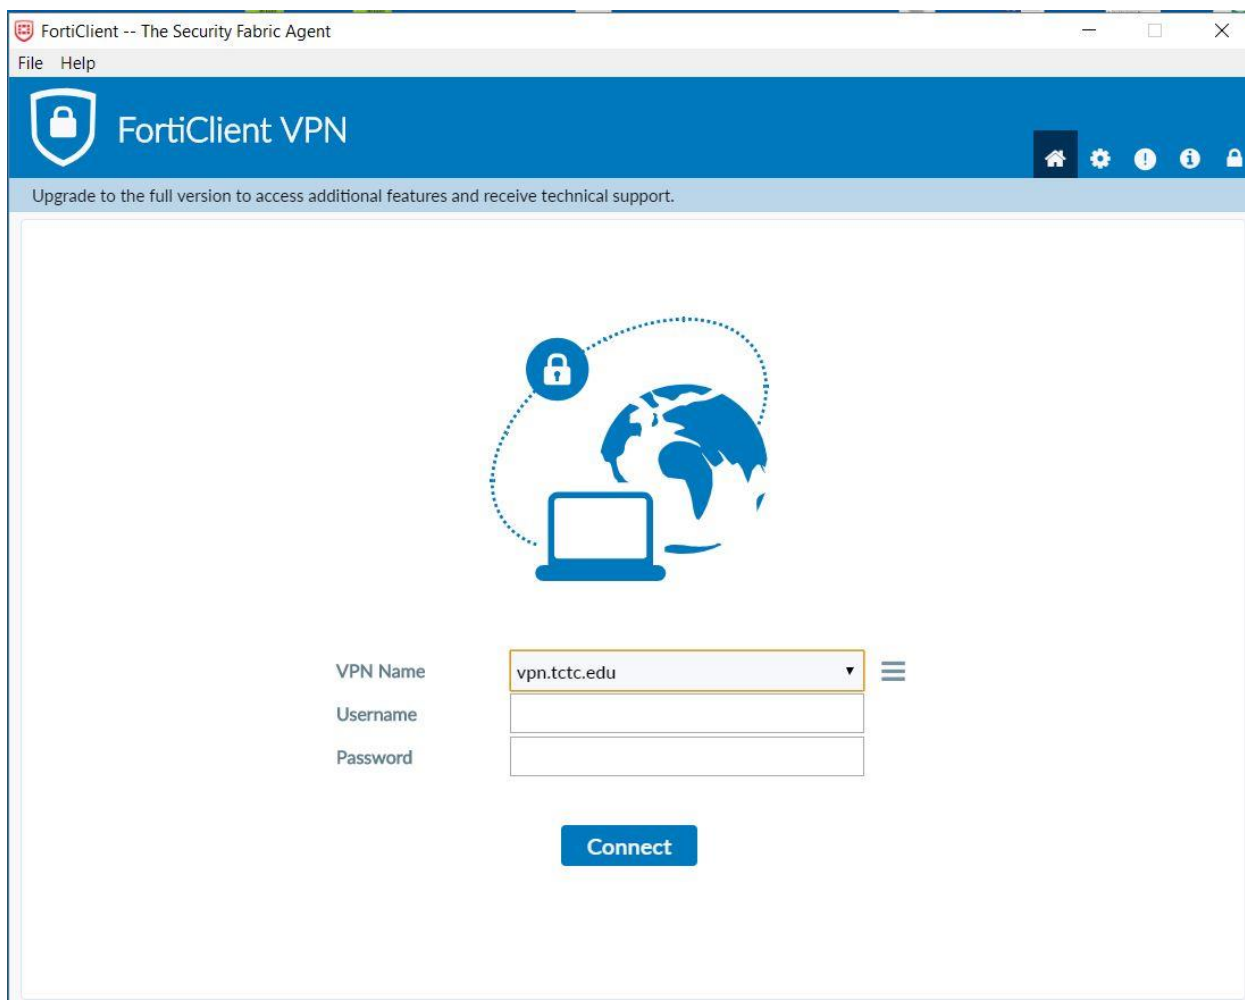

## Try It Out

1.) Locate the FortiClient desktop icon.

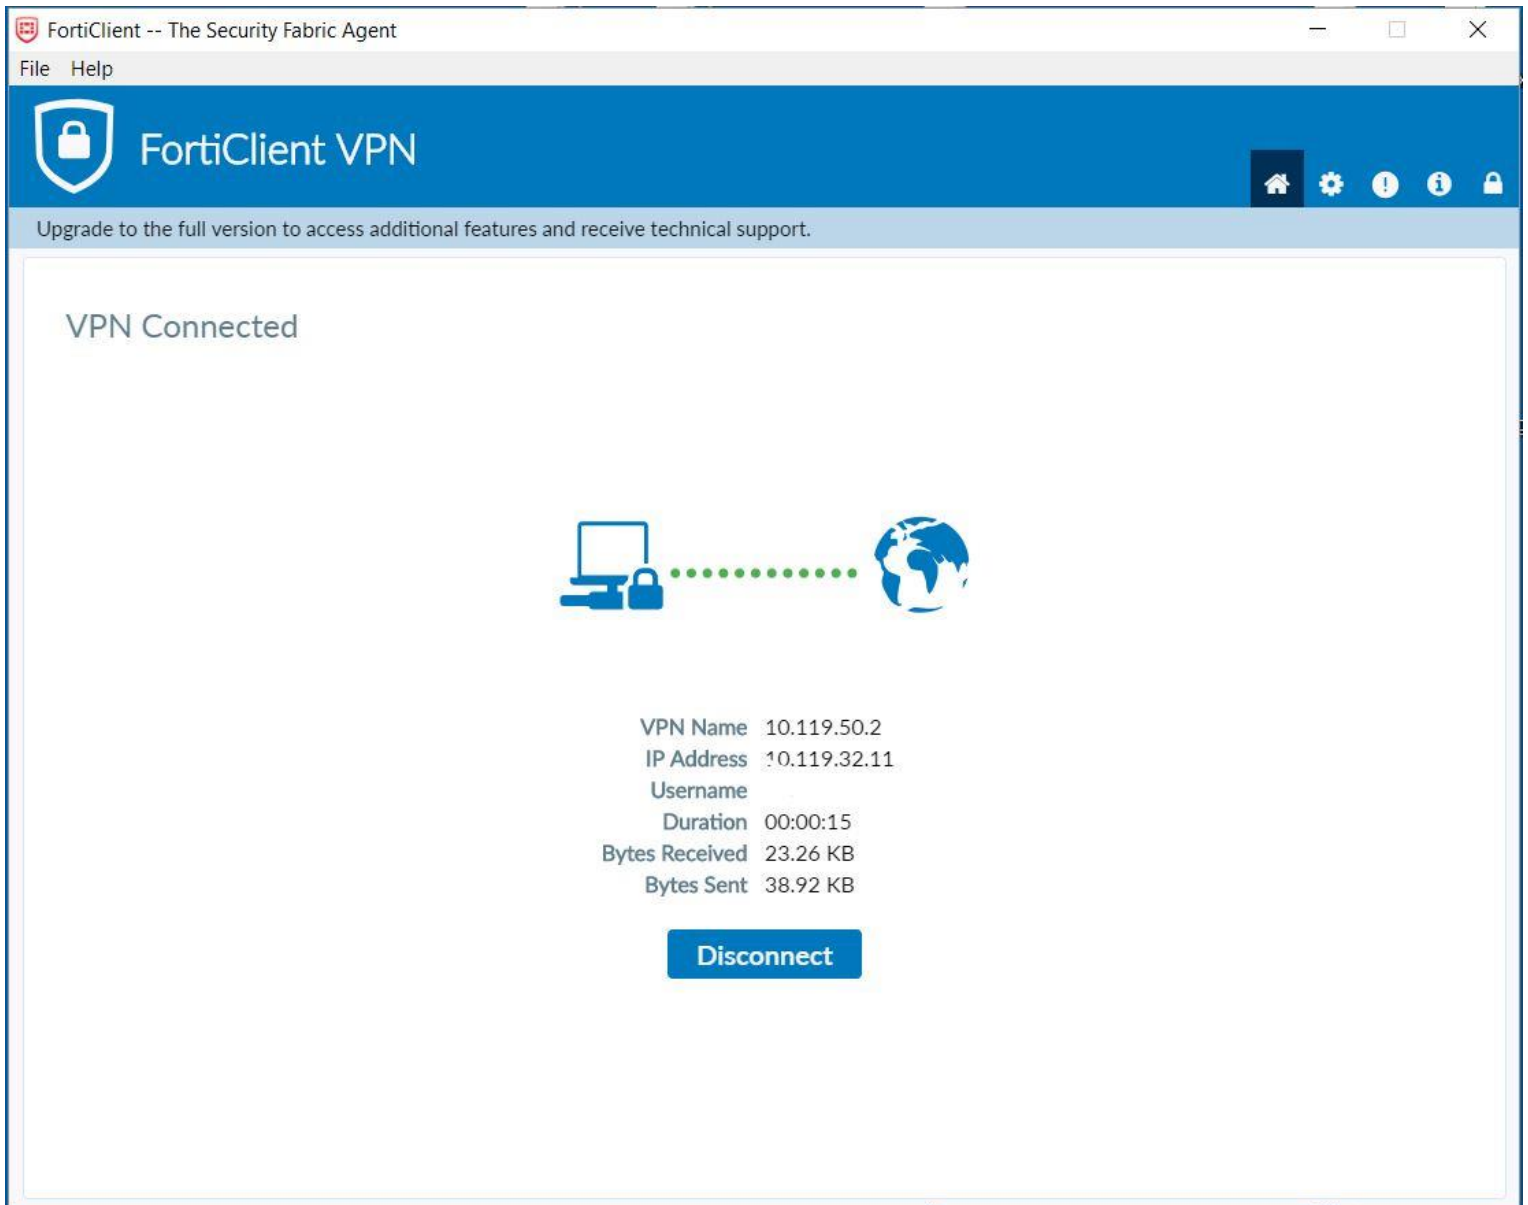

2.) Double click the icon.

3.) The client window will appear.

4.) Enter your Tri-County user name (Ex: kbaggett – **do not** enter your entire email address) and password. Click connect.

5.) Once connected successfully, the following screen will appear.

6.) Minimize the window to access desktop applications.

7.) Click  to end your remote connectivity/VPN session.
