Multiple Measures Math Placement

As you are continuing to complete the tasks and requirements on the Bridge to Clemson Enrollment Checklist, Tri-County Technical College (Tri-County) wants to inform you about an additional way to determine your math course placement. Your intended major at Clemson University (Clemson), as indicated in the enclosed Accuplacer placement charts, determines the math course required during your Bridge year.

To qualify for Multiple Measures Placement consideration, you must have:

1. Graduated from high school within the last three years (2018 – 2020),
2. An unweighted high school GPA of 2.8 or higher OR a weighted high school GPA of 3.2 or higher, and
3. A grade of C- or higher in at least one of the following courses: Algebra 2, Pre-Calculus, Trigonometry, or Calculus; and
4. Completed your Accuplacer placement test.

As a Bridge to Clemson student, the Multiple Measures Task Force will review your eligibility for multiple measures starting June 1. Should you be eligible, you will automatically receive an additional placement level, Multiple Measures Math Placement Level (MMPL), in your eTC account. You can view this, and all placement levels, through eTC:

Login to eTC → Get Set tab → DegreeWorks link in box 3 → Student Profile button → Supplemental Information section → PLACEMENT LEVELS AND TEST SCORES section

Multiple measures math placement is optional; the choice remains yours – you can enroll in the course indicated by your Accuplacer placement or you can pursue higher placement based on a cumulative review of your high school math course performance and your Accuplacer placement.

As you consider multiple measures math course placement, please note:

- As indicated on the enclosed placement charts, some math courses require a reading placement level of 25 or higher.
- Space in some math courses is limited. Your opportunity to register for a higher-level math course will be based upon course availability.
- Please know that placing into a course, using your placement test results or your high school record, does not ensure that you will pass the course.
- As always, take advantage of Supplemental Instruction (SI) and Tutoring Services to help you be successful in your courses!
If you are happy with the math course indicated by your Accuplacer placement, you do not need to do anything. If you would like to find out more about where you place according to Multiple Measures, join the Multiple Measures Task Force for one of our Virtual Open Houses. In order to join one of these Zoom meetings you will need to register using the “Multiple Measures Math Placement” link on our website (tctc.edu/clemsonbridge). Once you register for a date and time, you will be sent a confirmation email with the Zoom link and password.

- May 18, 2020 (1-3 p.m.)
- May 21, 2020 (1-3 p.m.)
- May 27 2020 (1-3 p.m.)
- June 2, 2020 (1-3 p.m.)
- June 4, 2020 (1-3 p.m.)

These virtual open houses are intentionally scheduled to occur prior to your advising and registration appointment. As a reminder, you will receive official advising and registration appointment instruction from Tri-County to your official College e-mail once you complete your orientation modules and Tiger Talk (see the enclosed Orientation Reminders for details).

If these virtual open houses do not work with your schedule or accessibility, you may contact the Multiple Measures Task Force contacts via e-mail or phone:

- Andrea Barnett, 864-646-1499 (O), 864-710-1333 (C), abarnet3@tctc.edu
- Keri Catalfo, 864-646-1621 (O), 864-634-1093 (C), kcatalfo@tctc.edu

Reminder, per the Bridge to Clemson Enrollment Checklist, all official AP or IB score reports, official dual enrollment college transcripts, and final, official high school transcripts should be submitted to both Tri-County and Clemson by June 1. See the Enrollment Checklist or the enclosed Orientation Reminders for appropriate mailing addresses and ways to verify receipt at the College.

- If your high school will be sending final, official high school transcripts after this deadline, just be sure to submit these as soon as possible, per South Carolina LIFE scholarship requirements.
- If you are taking any spring 2020 AP tests, scores become available in July each year. Be sure to indicate Tri-County and Clemson to receive those score reports, to expedite processing. In the interim of a score report, you must complete the Accuplacer for your math and English placement.
