

Medical Assisting

Tri-County's diploma in Medical Assisting prepares you for a job as a medical assistant. This multi-skilled profession allows you to provide important healthcare duties in primarily non-hospital, or ambulatory care settings, which means you won't have the rigorous schedule that includes long days, nights, or weekends. Duties of this job include:

- Obtaining and recording vital signs and medical histories.
- Performing EKGs, spirometry and visual acuity testing; setting up surgical trays; and assisting the physician with patient exams and procedures.
- Scheduling patient appointments, insurance processing, surgery scheduling to office management.
- Collecting and performing in-office CLIA-waived laboratory testing, including drawing blood and urinalysis.
- Medication dosage calculation and administration
- Maintaining medical records while working within an Electronic Medical Record or paper charts

Throughout your coursework, you'll prepare for your future career by gaining the knowledge, skills, and behavior necessary in both classroom and medical settings. Externships with local offices are available to ensure you have experience with patient care and to give you an advantage when searching for a job after you receive your degree.
