

Tri-County Technical College

2021-2022 College Catalog

Arts and Sciences Division

The Arts & Sciences Division is comprised of five core departments: English, Humanities, Mathematics, Science, and Social Sciences. As the largest academic unit, this division supports students across the College with general education courses and the Bridge programs. Two associate degrees are offered: Associate in Arts (AA) and Associate in Science (AS). In addition, a University Studies Certificate is available. These flexible credentials are designed for

students who intend to transfer to a four-year institution. A range of opportunities are provided for students to develop relevant, real-world skills through experiential learning, study abroad, and high-impact educational practices. Expert faculty create a robust learning environment that prepares students to achieve their potential and contributes to a nationally recognized transfer rate.
