You Have Questions. We Have Options!

If you’re looking to start a new career or advance in the one you have, Tri-County has a number of workforce training programs just for you—programs that range from QuickJobs to nationally recognized certifications. And workforce scholarships are available!

Fast, Focused and Flexible Training That Works
WELCOME TO TCTC CCE!

WHAT IS CCE?
The Corporate and Community Education Division (CCE) at Tri-County Technical College offers fast, flexible, focused training programs to promote and support student success, workforce development, our community, and our local economy. Some of our most popular programs are listed in this booklet, but to see everything available to you and to get updates, visit www.tctc.edu/learn.

Scholarship opportunities are available. Call 864-646-1700 for details.

WHY ENROLL?
The CCE program offerings include courses in professional development, short courses, seminars, workshops, apprentice opportunities, and nationally recognized certification programs called QuickJobs training. The training programs are designed to help you gain hands-on experience, career advancement, obtain or maintain professional certification or licensure, and/or to secure and sustain employment. The courses offered provide a variety of formats including in-class, on-site, hybrid, and online courses.

QuickJobs Certificates:
These short-term certificate programs provide training for high-demand jobs, designed to lead to immediate employment within 6 months or less. The QuickJobs training program includes compressed training usually tied to a national, state, and/or third-party criteria/requirements so that when you achieve your certificate(s), it is meaningful to employers in our area and beyond.

Personal Enrichment:
These courses will allow you to explore new interest, develop skills and/or further your passion.

Customized Training:
For companies interested in workforce development, we offer fully customized courses that are developed and designed to strengthen your teams, motivate your employees and help your business succeed. We can offer the training at our College or bring it to you, on-site, to help save you time and money.
WAYS TO REGISTER
1. ONLINE: Search for courses, register, and pay with a credit or debit card online at www.tctc.edu/Learn.

2. IN PERSON: Stop by the Industrial & Business Development Center on our Pendleton Campus (7900 Hwy 76, Pendleton, SC) to register and pay in person: Monday–Thursday: 8 am–5 pm, Friday: 8 am–2 pm. (Accepted forms of in-person payments are cash, personal & cashier’s check, and money order.)

CHANGE NOTIFICATION
Due to the COVID-19 pandemic, the Corporate and Community Education Division reserves the right to make the necessary revisions, as needed, to accommodate students affected by course and schedule changes and curricula delivery method. This includes but not limited to canceling or rescheduling courses. Please visit tctc.edu/Learn for course updates.

ICONS
QuickJobs Certificates are the most in-demand programs in our area. Designed to train you and get you into the workforce within 6 months or less. Class locations vary by program.

VA Approved: Many courses in this catalog have been approved for the GI Bill program by the state approving agency. Contact us for more information.

ACCELERATION LEARNING CENTER FOR OFFICE PROFESSIONALS

THE ACCELERATION LEARNING CENTER FOR OFFICE PROFESSIONALS, LOCATED AT THE PENDLETON CAMPUS, IS A UNIQUE LEARNING EXPERIENCE.

Instead of taking your classes in a traditional classroom with one instructor teaching one course at a time, you will take your classes in a lab setting where you will work on one class at a time independently.

An instructor-mentor is assigned to the lab and is available to assist you. Online access allows you to work from anywhere, enabling you to accelerate your course/program completion. This can accelerate your course/program completion. You may take individual courses (provided the prerequisite requirements are met) or you may take a series of specific courses to complete a number of various certificate programs. In addition, national certification opportunities are available.

The ALC features:
- Mentored learning
- Blended/Hybrid format
- Flexible, continuous start dates
- Work at your own pace
- Online learning in the ALC lab or at home/office

For more information, call 864-646-1700 or visit tctc.edu/alc.

Choose a Career Certificate Option Below (Continuous Start Dates):
- Digital Literacy Certificate: Master the digital skills needed today in the workplace and in everyday life. Cost, $299, includes course materials.
- Customer Service Certificate: Prepares customer service professionals with the core skills needed to serve their customers — every day! Includes national certification. Cost, $199.
- Bookkeeping Clerk Certificate: Learn how to support the finance, payroll, and/or accounting operations in an organization. Cost, $2,368, includes course materials.
- Business Office Support Specialist (BOSS) Certificate: Be a BOSS and learn the essentials for working in a technologically driven work environment. Cost, $2,430, includes course materials.
- Medical Office Administrative Specialist with Essentials of Billing & Coding Certificate: Learn the essentials for an entry-level position in physicians’ offices, clinics, hospitals, or a multitude of other healthcare industries. Cost, $2,842, includes course materials.

Stackable Credential Opportunities
Ask us about becoming nationally certified in:
- Microsoft Office Specialist (MOS)
- Customer Service Certification (ICSA)
- Certified Medical Administrative Assistant (CMAA)
- QuickBooks Certified User (QBCU)

WORKFORCE SCHOLARSHIPS AVAILABLE
Computer Service Technician/A+ Certification
Get ready for a career as an entry-level information technology (IT) professional or personal computer (PC) service technician. The CompTIA A+ Certification course is the first step in your preparation. This course will build on your existing user-level knowledge and experience with personal computer software and hardware to present fundamental skills and concepts that you will use on the job. Also, this class will prepare you for the CompTIA A+ National Certification Exam. Cost, $2,195, includes exam voucher.

CompTIA Network+ QJ
Start working now toward your career as a network technician by obtaining a CompTIA™ Network+ certification. In this course you will master basic networking concepts and learn about network design, security, routing and switching, cloud computing, IPv6 and forensics, and common security practices. Cost, $1,895, includes exam voucher.

CompTIA Security+ QJ
Cloud computing and mobile devices have forever changed organizational IT security structure. Keep up with the times with CompTIA Security+, a certification that prepares you to meet the growing demands of an increasingly developing virtual world. Cost, $1,895, includes exam voucher.

Certified Ethical Hacker QJ
The Certified Ethical Hacker course is the core of the most desired information security training system any information security professional will ever want to be in. Cost, $2,895, includes exam voucher.

Adobe Certified Professional in Web Design QJ
First impressions can create interest, grab attention, and a well-designed website can encourage clients to return. So, if you are interested in obtaining the skills to get started in web design, this is the course for you! You’ll learn three Adobe programs that focus on web design: Dreamweaver, Animate, and Photoshop. Also, you’ll be prepared to take the Adobe Certified Professional exam for each. Cost, $1,895, includes exam vouchers.

ONLINE IT PROGRAMS
We offer many other online career training programs in the Computers & Information Technology field. For each of these self-paced courses, an instructor is available to guide students. Each course has continuous start dates.

CompTIA IT Fundamentals+ QJ
Stand out in the digital workplace with a certification that proves your knowledge of CompTIA IT Fundamentals like networking and hardware basics. Cost, $895, includes exam voucher.

Help Desk Analyst: Tier 1 Support Specialist QJ
Help desk analysts are on the frontline of providing remote support. If you want to join one of the fastest growing remote industries, this 100% online course will train you for a career as a help desk analyst. Key topics include telecommunication, support software and more. Cost, $1,795, includes exam voucher.

CompTIA A+ Certification Training (ONLINE) QJ
CompTIA A+ certification is the industry standard for validating the skills of entry-level computer technicians. Cost, $2,195, includes exam voucher.

Cisco CCNA Certification Training QJ
Start your career in cyber security with this highly sought-after credential. Cost, $2,495, includes exam voucher.

DIRECT PATIENT CARE

CPR / Basic Life Support Skills Assessment
Composed of an online portion and a hands-on skills assessment, this course uses dramatizations, eSimulations, animations, self-directed learning, and interactive activities that will focus on meaningful skills practice, debriefing, team scenarios, discussions of local protocols, and skills testing. Cost, $99, includes assignment of online portion.

CPR / Basic Life Support / Healthcare Provider
Taught by the American Heart Association’s trained instructors, the CPR/Basic Life Support/Healthcare Provider course trains participants to recognize cardiac arrest, give high-quality chest compressions, deliver ventilations, and provide early use of an Automated External Defibrillator (AED) for adults, children, and infants. Cost, $79, with a $20 book fee.

Electrocardiograph Technician (ECG) Certificate
ECG Technicians are responsible for performing electrocardiograph tests in hospitals and physician offices. These tests are used to monitor and record electrical impulses transmitted by the heart. This course provides the student with instructions for collecting information and data about a patient’s heart using electrocardiography. Topics include: identifying heart rhythms, operation of a 12-lead electrocardiograph machine, treadmill stress tests and use of a Holter monitor, legal and professional aspects of patient contact. Course includes 45 hours of classroom & lab plus clinical experience. Clinical hours will vary. Prerequisite of Medical Terminology with Anatomy & Physiology, Healthcare Professionalism and CPR-Basic Life Support/Healthcare Providers required. Cost, $1,350, includes national certification exam fee and book(s). Material fee, additional $10.

Healthcare Professionalism
Being effective in the healthcare profession requires particular sets of knowledge, including concepts like the key elements of professionalism, work ethic, communication skills, cultural competence, and more. Cost, $278, with a $75 book fee.

IV Therapy
Designed for the education of current healthcare professionals, the IV Therapy course trains participants in the principles and practice of intravenous (IV) therapy. Cost, $349.

EMERGENCY MEDICAL TECHNICIAN CERTIFICATE

Emergency Medical Technicians (EMTs) provide emergency care to the critically ill and injured at an emergency scene. Our EMT program is certified and regulated by the SC Department of Health and Environmental Control (DHEC). Successful completion qualifies you to take the National Registry certification examination and become certified in South Carolina. This 200 hour program meets the current National Registry and SCDHEC/EMS standards. Prerequisites include satisfactory scores on EMS Testing. Cost, $1,700, and $243.60 in books and materials. The NREMT Practical exam is included in the cost of tuition.
HEALTHCARE

Personal Trainer

The National Academy of Sports Medicine (NASM) is the premier certification for Personal Trainers in the United States. This is a 78-hour course with 32 hours being online and 46 hours being a mixture of class, lab and experiential training. Students who successfully complete this course will become certified with a NASM Personal Trainer Certificate as well as receive a NASM Certificate of Distinction for successfully completing the program through Tri-County Technical College.

Prerequisite of CPR-Basic Life Support/Healthcare Providers required. Testing is included in the cost of tuition. Cost, $1720.

As a Certified Personal Trainer, your workplace options will vary depending on your career interest as a trainer, including fitness and recreational centers, civic and social organizations, hospitals and rehabilitation centers, and self-employment.

Phlebotomy Technician

Phlebotomists are specialized clinical support assistants who collect blood and other samples from patients for examination in laboratories, the results of which provide valuable information for diagnosing illness. Duties include collection and preparation of specimens, maintenance of collection areas and equipment and supplies, and performance of record keeping duties. Upon successful completion of program requirements, students will be able to sit for the phlebotomy certification with ASCP. Course includes 60 hours of classroom & lab and 100 hours of clinical experience. Clinical hours will vary. Prerequisites of Medical Terminology with Anatomy & Physiology, Healthcare Professionalism and CPR- Basic Life Support/Healthcare Providers required. Cost, $1320, includes certification exam. Book fees, $210.

NURSE AIDE CERTIFICATE WITH ALZHEIMER’S & DEMENTIA

The Nurse Aide is the primary direct care giver in long-term care, home health, hospitals, and private duty services. This course, approved by the South Carolina Department of Health and Human Services (SCDHHS), contains a combination of classroom lecture, simulated laboratory care and hands-on clinical experience in a long-term care facility which qualifies you to take the SC Nurse Aide Competency Exam which is required to work in a variety of healthcare facilities and organizations. This course also includes the Alzheimer’s and Dementia seminar. Prerequisite of American Heart Association CPR / Basic Life Support required. Cost, $1,475, includes national certification fees. Book fees, $103.

QUESTIONS? CALL 864-646-1700 • 11
HEALTHCARE

HEALTH INFORMATION MANAGEMENT

Medical Billing and Coding
The main role of medical billing and coding specialists is to ensure health providers are paid for medical services rendered. They are responsible for the accurate flow of medical information and patient data between physicians, patients and third-party payers. Without them, healthcare businesses could not function efficiently. This course includes ICD-10, CPT, HCPCS and Health Insurance & Billing. Prerequisite of Medical Terminology with Anatomy & Physiology required. Cost, $1,660, with $360 in books.

Medical Office Administrative Specialist with Essentials of Billing & Coding Certificate
Offered through our Acceleration Learning Center (see page 8 for details). In this program, you’ll learn the essentials for an entry-level position in physicians’ offices, clinics, hospitals, or a multitude of other healthcare industries.

Medical Terminology w/ Anatomy & Physiology
A prerequisite for ECG, Phlebotomy, and Medical Billing & Coding, this course provides instruction in the skills needed for the proper building and dissecting of medical terminology; to have a clear understanding of standard rules using word parts to form medical terminology; to have an overview of medical terms in the context of basic anatomy and physiology; and to understand Latin and Greek word parts to interpret unfamiliar words. Cost, $510, with $140 in books.

HEALTHCARE-RELATED ONLINE COURSES

Patient Care Technician
Take your healthcare profession to the next level with the Patient Care Technician course. Starting with a solid basis of healthcare knowledge (including Nurse Aide, Phlebotomy, and ECG, CPR/Basic Life Support, Medical Terminology, and Health Professionalism), you will have the opportunity to earn a nationally recognized certification for this in-demand position. Cost, $613.

PHARMACY TECHNICIAN

Pharmacy Technicians work side by side with pharmacists in every pharmacy setting to provide assistance in prescription preparation, customer service, and pharmacy management. Students learn the skills necessary for prescription preparation and basic pharmacy management which requires studies in pharmacy calculations, aseptic and non sterile compounding, state and federal pharmacy law, medication safety and use, and communications. Students will be exposed to the various aspects of pharmacy practice not only in the classroom but also in simulation laboratories and experiential education opportunities.

The Pharmacy Technician program also meets the requirements of the South Carolina Board of Pharmacy for pharmacy technicians seeking to be state certified. The Pharmacy Technician program is accredited by the American Society of Health System Pharmacists (ASHP). TCTC is also a Pharmacy Technician Certification Board (PTCB) recognized Sterile Compounding Education and Training site for Sterile Compounding and Aseptic Technique (SCAT).
Tri-County Technical College’s Logistics program offers the Manufacturing Skill Standards Council (MSSC) career-specific credentials for prospective and frontline employees working in factories, warehouses, transport and distribution centers. Logistics course offerings include:

**Material Handler/Certified Logistics Associate (CLA) Certificate**

Earn this certificate by taking the Certified Logistics Associate (CLA) course and the Forklift Operations and Safety course.

Cost, $1,549.

**Certified Logistics Technician (CLT)**

Take logistics to the next level and expand your knowledge of logistics with the advanced MSSC Certified Logistics Technician (CLT) course. Topics include product receiving, order processing, inventory control, and more. Prerequisite: Certified Logistics Associate (CLA).

Cost, $950.

**Forklift Operations & Safety**

Through practice on forklift simulators and on various forklifts (including sit down, stand-up, and varying reach), the Forklift Operations & Safety course will prepare you to be an even greater asset to the logistics industry.

Cost, $599.

**Lean for Warehouse/Distribution**

Take your career in Logistics to the next level by earning the Lean for Warehouse/Distribution certificate. Topics include: Introduction to 5S and Visual Control, the 5S’, Sort, Set, Shine, Standardize & Sustain, and Visual Control into Practice.

Cost, $199.

**Freight Broker/Agent Training**

This online course provides you with the comprehensive training needed to gain valuable knowledge for building a successful freight brokerage or freight brokerage agency. Continuous start dates.

Cost, $1,995.

---

**CUSTOMIZED TRAINING**

Whatever your organizational needs are, we'll deliver the training you want, where you want it, and when you want it, all for an affordable cost.

**WHAT YOU WANT.** We’ll conduct an in-depth assessment of your training needs and recommend the right course or courses to help you reach your performance objectives.

**WHERE YOU WANT IT.** We’ll deliver one course or a full program at your site, at an off-site location, or at any of our facilities.

**WHEN YOU WANT IT.** We’ll offer courses any time—day, evening, third shift, weekend, or even a blending of online and on-site. Our flexible scheduling helps you minimize disruptions to your employees’ work schedule.

**CONTACT US AT 864-646-1700 TO LEARN MORE ABOUT HOW WE CAN HELP YOU AND YOUR ORGANIZATION.**

CERTIFIED PRODUCTION TECHNICIAN

INTERVIEW WITH LOCAL MANUFACTURING COMPANIES IN AS FEW AS THREE WEEKS!

This four week course offers complete training to enable you to build the core knowledge and skills needed in modern manufacturing. You will learn the essential skills in Safety, Quality Practices & Measurement, Manufacturing Processes, and Production & Maintenance Awareness that will contribute to your ability to land in demand and high wage jobs. When you successfully pass the four modular assessments, you will receive a nationally recognized Certified Production Technician certification offered through the Manufacturing Skill Standards Council (MSSC). Employers are interviewing and hiring out of this class!

MSSC

INDUSTRIAL ELECTRICIAN

Basic Industrial Electrical I
Learn the basics of electrical theory and its application in the Basic Industrial Electrical I course. You will learn how to select, use, and interpret the correct testing instruments for various situations you may encounter as an Industrial Electrician.

Basic Industrial Electrical II
Expand your knowledge of industrial electricity through the Basic Industrial Electrical II course. Test, replace, and repair components such as motors and transformers in addition to learning a multitude of other electrical concepts.

OSHA 10-Hour, OSHA General Industry Standards
Designed for industry personnel, the 10-Hour OSHA General Industry Standards course provides you detailed insight into OSHA standards and how those are applied to the workplace.

Operator Optimization
This course is an industry-led, standards-based training, assessment and certification system focused on the core skills and knowledge needed by the nation’s advanced manufacturing workforce. The program provides proof of an individual’s ability to perform a wide range of hands-on technical skills and comprehensive knowledge in electronic, electrical, fluid power, and mechanical systems to immediately be productive.

Powered Industrial Truck Train
The Trainer
Learn to conduct training for operators of forklifts and other powered industrial trucks in the Powered Industrial Truck Train the Trainer course.

Supervisor Certification
Sharpen your skills as a supervisor with the Supervisor Certification course. You will learn the necessary skills for your leadership position as well as how to address the culture of the manufacturing industry in today’s world. This course addresses the most critical challenges in business today, such as globalization, transitional and temporary employees, virtual employees, outsourcing, and downsizing. Special attention to diversity and ethics also helps students develop a better sense of real-world situations. This course also covers communication, decision making, conflict resolution, and other essential supervisory skills.

14 • VISIT TCTC.EDU/LEARN • WORKFORCE SCHOLARSHIPS AVAILABLE
Employee and Leadership Development
We offer customized training and services to manufacturing & industrial settings, service industries, government agencies and employees on topics such as supervision, management and team-building, as well as upgrading skills in a variety of areas.

- Conflict Resolution
- Leadership Development
- OSHA Industry Standards
- Problem-Solving
- LEAN Training & Implementation
- Supervisor Certification
- Workplace Communication

Mechatronics
Mechatronics courses combine various skills to teach students a comprehensive approach to developing solutions for work-specific applications. The curriculum provides a host of hands-on integrated skills such as Motor Controls, Fluid Power, and PLCs that can be applied towards a wide variety of job contexts in the manufacturing industry.

CNC Operator
Students are introduced to basic CNC processes (including basic setup) and operations of a CNC mill and lathe. The course will also cover basic feeds and speeds, troubleshooting problems, measuring equipment, work holding practices, along with identification and use of various cutting tools. Basic math and blueprint reading for machining purposes are also covered.

NEW!

SAFETY
A variety of safety courses for the mining, construction, and manufacturing industries are available to help you stay safe in the workplace and avoid safety-related accidents and downtime.

- MSHA New Miner
- MSHA Annual Refresher
- OSHA Construction Standards (10- and 30-hour)
- OSHA General Industry Standards (10- and 30-hour)
- American Heart Association CPR/First Aid

ELECTRICAL WIRING

Electrical Wiring Certificate (Electrical I, II, III, IV)
Complete all four of the Electrical Wiring courses in this individual Electrical Wiring Certificate program. Save money and stay focused by taking each of the courses consecutively. Cost, $1,999.

Electrical Wiring I: Residential
Start your journey toward becoming an electrician with Electrical Wiring I, the first course in a series of four. You will learn the basics of electrical wiring, electrical theory, Ohm’s Law, and the types of services available for residential applications. Cost, $499.

Electrical Wiring II: Residential
Build upon the foundation you built in Electrical Wiring I: Residential with Electrical Wiring II: Residential. You will dive deeper into your understanding of the National Electrical Codes, calculations, wiring devices, and troubleshooting. Cost, $499.

Electrical Wiring III: Commercial
Continue to develop your understanding of electrical wiring with the Electrical Wiring III: Commercial course. You will cover topics such as proper conductor sizing, voltage drops, electrical grounding, and more. Cost, $499.

Electrical Wiring IV: Commercial
The Electrical Wiring IV: Commercial course concludes the series of electrical wiring courses and prepares you to enter the commercial field as a journeyman. You will learn concepts like sizing raceways, phase power, motor control circuits, refrigeration and hermetic systems, and more. Cost, $499.

Journeyman/Master Electrician Exam Prep
Study the National Electrical Code in preparation for the Journeyman/Master Electrician license examination.

FIBER OPTICS

Fiber Optics Certified Fiber Optic Technician (CFOT)
Prepare for the Certified Fiber Optic Technician (CFOT) exam through this 3-day course designed to provide you theory and hands-on activities to engage you in the learning process. You will learn how to identify fiber types, recognize various connectors used in fiber installation, and much more. Cost, $950.

Certified Fiber Optic Specialist/Testing & Maintenance (CFOS/T)
Further develop your understanding of fiber optics with the Certified Fiber Optic Specialist/Testing & Maintenance course. You will learn the intricacies of fiber optic testing standards, the equipment used in testing and splicing, and much more. Cost, $850.

Certified Fiber Optic Specialist/Splicing (CFOS/S)
Receive in-depth instruction and practical, hands-on experience in the Certified Fiber Optic Specialist/Splicing course. Gain a greater understanding in both fusion and mechanical splicing of either single or multimode fiber optic cables and more. Cost, $850.

Pre-Highway Construction Inspector/Testing Technician – Asphalt Roadway QJ VA
Ditch the desk and become a Highway Construction Inspector! Gain the entry-level knowledge of equipment, concepts, specifications, and material testing procedures necessary to prepare for work as an asphalt roadway technician. Plus, you’ll be able to take the exam for SCDOT Asphalt Roadway Technician certification. Cost, $2,500. Scholarships are available for those who qualify. Apply at tctc.edu/learn.

Pre-Highway Construction Inspector/Testing Technician – Earthwork & Base Course QJ VA
Ditch the desk and become a Highway Construction Inspector! Gain the entry-level knowledge of equipment, concepts, specifications, and material testing procedures necessary to prepare for work as an earthwork and base course technician. Plus, you’ll be able to take the exams for Nuclear Density Gauge HazMat certification and SCDOT Earthwork & Base Course Technician certification. Cost, $2,500. Scholarships are available for those who qualify. Apply at tctc.edu/learn.
SKILLED TRADES

HEAVY EQUIPMENT, HEFTY OPPORTUNITY!

Heavy Equipment Operator: NCCER Core & HEO Level 1 + Skid Steer, Excavator

Prepare for a wide variety of career opportunities with the Heavy Equipment Operator course. Through the support of our local employer partners (some are listed below), we are able to offer you training for the following equipment: skid steer, front-end loader, roller/compacter, and mini excavator. You will also receive relevant instruction in Basic Construction Skills to provide you the knowledge and experience you need to be successful in your career. Cost, $4676.

POWER LINE WORKER CERTIFICATION

The Power Line Worker Certification program gives you everything you need to spark a career with top employers. Now is your time to become a Power Line Worker. Tri-County Technical College offers a comprehensive training program that will prepare you for entry-level line work positions. The Power Line Worker Program prepares you to enter the electric utility industry as an apprentice with a broad understanding of the skills, knowledge, safe work practices and physical ability required to perform line work. Cost, $4879.

THE POWER LINE WORKER CURRICULUM:

- COURSE 1: Basic Construction Skills (3 weeks) includes NCCER Core Safety, OSHA 10, and American Heart Association (CPR).
- COURSE 2: Power Line Worker (9 weeks) includes safety, introduction to electric current, introduction to electric theory, climbing wooden poles, climbing structures other than wood, tools of the trade, aerial framing, utility service equipment, rigging, setting and pulling poles, trenching, excavating and boring equipment, introduction to electrical test equipment, alternating current and three phase, cable and conductor install and removal.
- OPTIONAL after obtaining the Power Line certification: Commercial Driver’s License (CDL A). Cost, $4,620.

Scholarships are available for those who qualify. Community partnerships with Goodwill and SC Works WIOA offer possible tuition assistance for the CDL A.

Commercial Truck Driving (CDL) 💥
With its flexible schedules and night course offerings, the Commercial Truck Driving (CDL) course makes your career transition a smooth ride. From in-person instruction to on the road training, you will have the opportunity to learn your truck inside and out.

**CLASS A**
In just 5 short weeks (or 10 weeks in the evening class) you can get your class “A” CDL! You will benefit from one week of classroom instruction and four weeks of intense, hands-on training and driving. Course requires 148 hours of classroom and hands-on training and testing. Training includes pre-trip vehicle inspection, vehicle control, range, and behind-the-wheel driving (required for skills testing). This program is licensed by the SC Department of Motor Vehicles/Department of Public Safety. Cost, $4,620.

**CLASS B**
In just 2 ½ weeks of training you can get your class “B” CDL! Be ready to enter the world of truck driving. Course consists of 70 hours - classroom instruction, behind-the-wheel driving and range experience and testing for licensure. This program is licensed by the SC Department of Motor Vehicles/Department of Public Safety. Cost, $2,390.

Defensive Driving (point reduction)
Earn four points back on your driver’s record through the Defensive Driving course. You will learn essential skills for safe driving such as how to avoid accidents and how to react defensively. Cost, $99.

MOTORCYCLE TRAINING

**Basic Motorcycle Class (BC)**
Perfect for those with little or no riding experience, this class teaches the basic techniques of riding a motorcycle. Students will ride small (100–350cc) training motorcycles provided by SC Rider Education. It’s all about giving you a solid learning experience while having fun! Successful completion of the Basic Motorcycle Class qualifies you for a waiver on the SCDMV motorcycle license test. Cost, $325.

**Motorcycle Safety Training**
Whether you are a seasoned rider or this will be your first time trying, the Motorcycle Safety Training course prepares you to ride the roads safely and in style.
Digital Photography I
Gain the skills you need to take great photos with your digital camera and never miss a memorable moment again. Learn how to set up your camera and stop using the automatic settings for more creative control of your photos. Learn exposure fundamentals and how to use the functions of your camera to create photographs you want others to see. Cost, $325.

Digital Photography: Photoshop/Lightroom
Adobe Photoshop Lightroom is a fantastic tool for digital photographers at any skill level who need to manipulate and organize photos and images. This course will teach you how to prepare, edit, and organize photos quickly and effectively. Through hands-on exercises, you will learn to use Lightroom and perfect your digital photos. Cost, $325.

Digital Photography II
Build upon the techniques you learned in Digital Photography I to further advance creative techniques using motion control and depth of field. Emphasis is on composition, seeing light, using scene elements to express depth and dimension, creative exposure control, and continuing to improve both technique and knowledge of the photographic process. Cost, $325.
