COMPREHENSIVE EMERGENCY MANAGEMENT PLAN

2022-2023
This information is located on MyTCTC and on the College’s public website at

https://tctc.edu/media/2636/comprehensive_emergency_management_plan.pdf.

Revised December 2022
On behalf of the Tri-County Technical College Police Department, we would like to thank you for your connection with the Tri-County Technical College family. It takes everyone’s combined cooperation to keep Tri-County Technical College safe, and we want to extend to anyone who attends Tri-County Technical College an opportunity to give input on making this campus the safest campus in South Carolina.

Chief Marcus Guess
Purpose

The purpose of the Tri-County Technical College *Comprehensive Emergency Management Plan (CEMP)* is to establish guidelines, assign responsibilities, and promote awareness in responding to emergencies that may occur on Tri-County campuses and which may affect the greater local community. Additionally, the plan is designed to provide guidelines to assist those affected in dealing with crisis, coordinate with external entities, and provide resources to expedite the return to normal operations with minimal negative impact. This plan was created to complement plans already in place on the state, county, and city level, and is intended to be comprehensive, sustainable, and flexible.

The Tri-County Technical College CEMP is based on the Incident Command System (ICS), a universal emergency management system that conforms to FEMA’s *National Incident Management System (NIMS)* designed to address all levels of emergency response. The ICS provides the following components:

- **Common Terminology** – to enhance operations and communication (especially with external fire/police/EMS).
- **Unified Command Structure** – to ensure responsibilities are delegated and decisions are made at the appropriate level and that one voice represents the College.
- **Span of Control** – so that supervision and responsibility will be limited within a manageable range.
- **Comprehensive Resource Management** – requiring the coordination and inventorying of necessary resources, both within the College and from outside resources.

Priorities

Tri-County Technical College will respond to an emergency in a safe and timely manner; will provide support to off-campus emergency response agencies; will assist students, faculty/staff, and visitors; and will effectively communicate the status of events. The order of priorities will be:

1. To protect the lives, safety, and health of Tri-County Technical College faculty, staff, students, and visitors who may be on campus.
2. To protect facilities, equipment, and services from loss during a continuing emergency event.
3. To effectively communicate with all involved parties throughout the duration of the emergency event.
4. To provide for the continuation of College operations and services that have been disrupted or damaged by an emergency incident.
Scope

These guidelines apply to all students, staff, faculty, and guests, and to all Tri-County buildings and grounds. They are intended to enable the College to protect life and property and minimize damage that may be caused by emergency situations.

Any person on campus who witnesses or receives information regarding an emergency is instructed to immediately contact the Campus Police Department at Extension 1800 (864-646-1800). All Tri-County faculty and staff have a personal responsibility to be familiar with the CEMP and know what to do in specific emergency situations.

Assumptions

The Comprehensive Emergency Management Plan is predicated on a realistic approach to problems likely to be encountered on the campus during an emergency incident. Hence, the following are general assumptions:

- An incident may occur at any time with little or no warning.

- Emergencies may affect residents in the geographical location of the College; therefore, federal, state, and local emergency services may not be available. In such instances, a delay in off-campus emergency response may be expected.

- An emergency may be declared according to the guidelines in this plan if information indicates that such a condition has developed or is expected to develop.

- Campus Police personnel will respond to emergency incidents, assess the situation, and initiate a pre-planned response to the incident. Most incidents can likely be managed by Campus Police personnel; however, if the incident calls for a response that exceeds their ability to manage, Campus Police has authority to escalate the incident by:
  - Activating the College’s Incident Command System, and/or
  - Calling for appropriate outside responders, which may include area law enforcement officers, fire department and EMS personnel. (When outside responders assume control of an emergency event, College officials will provide a support role.)

- In the event the College’s Incident Command System is activated, the Incident Commander will manage the incident, supported by the ICS Emergency Management Team. The Incident Commander is responsible for assessing the incident, controlling the incident within his/her level of training, requesting required resources and assistance, and directing the activities of others affected by and responding to the emergency.

- The succession of events in an emergency is not predictable; therefore, published support and operational plans will serve only as a guide; modification may be necessary to meet emergency-specific requirements.
Phases of Emergency Management

There are three general phases of emergency management:

1. **Preparation**: Includes developing readiness for emergencies based on education, organization and communications. A major responsibility is to maintain an ongoing threat assessment model to ensure effective preparation. Preparation is the process of risk reduction that involves the following elements:
   a. **Mitigation** – Activities that can reduce the seriousness of an incident.
   b. **Prevention** – Activities that eliminate the risk of a hazard.

2. **Response**: Involves procedures for responding to emergency situations, assessing affected populations, treating the injured, and limiting damage to property. Pre-determined general and specific guidelines for responding to various incidents have been developed and are presented within this document.

3. **Recovery**: Requires incident review, documentation, risk management, and plans for limiting liability that will expedite the return of a normal day.
Training
All Tri-County faculty and staff have a personal responsibility to be familiar with the CEMP and know what to do in specific emergency situations. Campus Police will use both on-campus and off-campus resources to coordinate employee training programs to ensure the campus community is prepared to manage any incident that might arise.

Initial and follow-up training will be provided in a number of ways, to include:

- Town Hall meetings will include a discussion of Emergency Management and the CEMP.
- SRP Handouts and online emergency management plan.
- Information on the Campus Police website will be available for review regarding emergencies on campus.

Additional training will be offered for the following groups:

1. **Campus Police Officers** - Campus Police Officers will complete basic ICS training upon employment and annually each officer will continually train on and off campus in different areas of emergency management and public safety.

2. **Building Safety Team** - Basic training will be offered in evacuation, radio communications, and safety and security.

3. **The College ICS Team** - Basic training in ICS and emergency management will be provided to each member of this team.
The College’s Incident Command System (ICS) consists of faculty and staff representatives at the College whose positions are critical in the response and recovery from a critical incident. In the event an incident occurs that could have a significant impact on College operations, the ICS Team will be activated. Procedures for activating the team are as follows:

- Any member of the ICS team has the authority to activate the ICS team; however, typically the Incident Commander or Chief of Campus Police will activate the team since their positions at the College allow them access to reports of critical incidents before other members of the college.

- To activate the team, a Regroup notification (e.g., text, e-mail, phone call) and a call over emergency radios will be sent to all team members. This message can be sent by the member activating the team or his or her designee. Direct contact by phone call can also be used to contact members of the ICS team.

- Upon activation, the Incident Commander will designate a meeting location based on the nature of the event and the ICS Team will report to this location, also known as the Emergency Operations Center (EOC).

- It is the responsibility of team members to report without delay to the EOC. All ICS team members will have individual access to the EOC. In the event a team member cannot immediately respond, that team member should contact either the Incident Commander, Public Information Officer(s), or Campus Police to inform them.

Once the ICS Team has reported to the EOC their immediate responsibility is to establish lines of communication, seek information on and monitor the incident, and immediately assist with the incident response. To expedite this process and move seamlessly into the actual management of the incident, each team member must know his or her role and begin to immediately function in their role. The team make-up and assignment of responsibilities is subject to change depending on the type of incident and whether or not all team members are able to respond. A change in responsibilities or the bringing in of additional personnel will be reviewed and approved by the Incident Commander.
**Incident Commander** – Responsible for all aspects of incident management including development of incident objectives, management of all incident operations, and application of resources. The Incident Commander serves as the final decision-making authority.

**Operations (Ops) Chief** – Directs all actions to meet incident objectives as defined by the team and the Incident Commander.

**Planning** – Collects and displays incident information, including status of resources and overall status of the incident. Prepares an incident action plan and post-incident demobilization.

**Logistics** – Provides all resources including supplies, communications, transportation, and medical support required by the incident.

**Finance** – Tracks incident-related costs, personnel records, requisitions, procurement, and other related administrative functions.

**Public Information Officer** – Serves as the conduit for information to and from internal and external stakeholders, including the media and other organizations seeking information about the incident or event. The person in this role is also responsible for keeping the ICS Team informed as to what is being reported about the incident. This responsibility is key in addressing public questions, managing rumors, and maintaining a focus on public relations issues.

**Safety Officer** – Monitors safety conditions and develops measures to assure the safety of all assigned personnel.

**Liaison** – Serves as the primary contact for supporting agencies assisting at the incident.

**Executive Policy** – The lead College policy administrator and liaison responsible for monitoring the incident and providing guidance from a College policy perspective.

**Campus Representatives** – Representatives for the College’s community campuses. As the most knowledgeable team member for each separate campus, they will serve as a liaison for their specific campus.

EMERGENCY MANAGEMENT PROCEDURES

Notification Channels

The College uses a tool called Regroup to transmit critical information to large segments of our College community as quickly as possible. This will be accomplished by utilizing several communication options, including:

- An e-mail will be sent to all faculty, staff, and students.
- An automated phone call will be made to all faculty, staff and students with unanswered calls resulting in an automated voicemail message.
- A text message will be sent to all faculty, staff and students.
- An alert banner will be posted on the public website (tctc.edu).

Emergency Radios

The Building Safety Team members are assigned emergency radios. These radios are assigned for the purpose of relaying information and instructions based on situations that are expressed in this manual. Radios are to remain on at all times. If an emergency occurs, information will be relayed via the radio, and other notification channels, so it will need to be monitored. Radio checks will be conducted on a regular basis to ensure they function properly. An email will go out the day of the radio checks to let everyone know.

Emergency Contact Numbers

- Campus Police Pendleton Campus (864) 646-1800

Emergency Procedures

Evacuation – Schematic floor plan drawings are posted in each corridor/hallway showing exit locations and evacuation paths.

1. **Building Evacuation** – Building evacuations will occur when a building alarm (fire alarm) sounds and/or upon notification by the Campus Police Department. Do not re-enter the building until a notification is sent out by Campus Police stating that the building evacuation is over and everyone can re-enter the building(s).

2. **Campus-wide Evacuation** – Evacuation for all or part of the campus will be announced by the Campus Police Department or appropriate agency. All persons (faculty, staff, students, guests) are to immediately vacate the area of campus in question and relocate to the predetermined evacuation site. Do not re-enter the campus and or building(s) until a notification is sent out by Campus Police stating that the evacuation order is over and everyone can now re-enter the campus and or building(s). Please refer to the SRP for further evacuation instructions (pg. 14).

</table>
3. **Halbert Hall Evacuation** - Halbert Hall houses the TCTC Veterinary Technology Program which maintains animals on campus on a continuous basis. Therefore, specific provisions must be made to address evacuation of Halbert Hall:

a. OSHA requires that humans evacuate the building as soon as possible, and does not recommend that human life be risked to save animals. However, if time permits, animals can be evacuated in carriers or by opening kennel doors, depending on the severity of the incident. The priority is always human life, but in the event an animal evacuation is feasible, emphasis should be on getting animals out of the building as quickly as possible.

b. The Veterinary Technology Program maintains an individual animal carrier and one red slip leash for every animal in the building that can be used, if needed, during an evacuation. If necessary, animals may be transported by truck to off-campus facilities. Memorandums of Understanding (MOUs) are maintained with the following facilities to receive animals that have to be moved in the event of an evacuation:

   Oconee County Humane Society  
   1925 Sandifer Blvd.  
   Seneca, SC 29678  
   (864) 888-0221  
   Contact: Officer Shaun Honea

   Pickens County Humane Society  
   500 5 Five Forks Road  
   Liberty, SC 29657  
   (864) 843-9693  
   Contact: Samantha Gamble, Director

c. The point of contact for the TCTC Veterinary Technology Program is Ashley Brady, (864) 646-1547, afowler2@tctc.edu.
**EVACUATING PERSONS WITH DISABILITIES**

**Pre-Planning is Important.** If you anticipate needing evacuation assistance in an emergency, you should pre-plan and contact the Office of Disability Services at (864) 646-1564. Disability Services works with the Campus Police Department regarding the potential needs and class schedules of students with disabilities. Employees with disabilities should contact the Campus Police Department directly for assistance in pre-planning.

- Evaluate your need to identify as someone who requires assistance during an evacuation. Some people who may need assistance have no visible disability.

- Master the skill of giving quick information on how best to assist you. Be clear and concise. If you have difficulty speaking or have a medical condition that renders you unable to communicate, consider carrying a preprinted message with you.

- Establish a personal network consisting of people who are regularly in the same area as you. Do not depend on any one person as they may not always be available. Assess your own abilities and communicate your capabilities and limitations to those in your network.

- Determine all your evacuation options and prioritize them. Consider the pros and cons of each:
  - **Being carried** – You have a chance to get out but you and/or your helpers may be injured in the process.
  - **Evacuation chairs** – Use an evacuation chair if available. Evacuation chairs are safer than being carried and you don’t have to wait for the fire department to reach you.
  - **Areas of refuge** – Areas of refuge are fire-resistant spaces where people unable to use stairs can call for help by way of two-way communication devices. An area of refuge is a good option if you feel you may be injured if you use the stairs; however, they are typically not available in older buildings, and you may be overcome by smoke before getting help from rescue personnel.
Use of elevators – Elevators are useful in non-fire emergencies; however, they are shut down automatically if the fire alarm is activated. The elevator shaft can become a chimney for smoke and the power can go out, leaving the elevator stuck between floors.

- Attempt a rescue evacuation only when the disabled person is in immediate danger and cannot wait for professional assistance.

- If possible, the disabled person should be moved to the nearest stairwell, or a room with the door shut which is well clear of any hazardous area. One person should stay with the person needing assistance, if possible.

- Ask others leaving the building to notify emergency responders that a disabled person needs assistance in evacuating. Give the specific location.

- If waiting for rescue is not an option, two physically capable occupants of the building should be asked to volunteer to assist the disabled person in evacuating. Ask how the disabled person can best be assisted or moved, and whether they require any special considerations or items that need to come with the person. Keep in mind that you may need to clear debris in order to safely evacuate.

- Do not use elevators unless told to do so by emergency responders.
Building Safety Team

An important element of the Comprehensive Emergency Management Plan (CEMP) is the Building Safety Team program. This program calls for each College academic and administrative building to have a Building Safety Team Member to serve as a liaison between various campus departments and Campus Police for issues relating to safety and security. Deans and/or Department Heads strategically appoint persons to the Building Safety Team, based on their area of responsibility or their location in the building, to act in the event of an emergency.

Faculty or staff members may volunteer to serve as part of the Building Safety Team for the building in which they work. Each Building Safety Team Member should have a backup to serve in the event they are not on campus during an incident. Buildings with multiple floors should have a Floor Monitor from each floor to assist Building Safety Team Members should it become necessary to evacuate the building.

Building Safety Team Members are expected to familiarize themselves with and have a good working knowledge of the College’s Comprehensive Emergency Management Plan (CEMP). Also, they must be willing and able to respond in the event of an emergency on campus, particularly as it relates to their workspace and/or building. Building Safety Team Members participate in drills covering lock-down procedures, active-shooter response training, building evacuation, inclement weather, etc.

Responsibilities of Building Safety Team Members are generally the same across campus; however, there may be building-specific responsibilities in some instances. General duties and responsibilities include:

- **In the event of a building or campus lockdown**, the Building Safety Team Member will encourage building occupants (students/employees/guests/visitors) to not leave the building.

- **If an evacuation is necessary**, Building Safety Team Members and Floor Monitors will ensure everyone gets out of the building quickly and safely. Building occupants will be instructed to take their belongings and lock office/rooms, **IF POSSIBLE**, as they leave in case the area is secured for an extended period of time. Faculty and staff members will be responsible for evacuating their classrooms or areas of the building.

- **In the event of a bomb threat**, the Building Safety Team Member, as they are evacuating, will ensure that occupants are exiting the building, check for any persons still moving around in the building, and report any suspicious bags or packages they may have seen while exiting.

- **Building Safety Team Members** will coordinate responsibilities in their specific buildings to eliminate duplication of efforts to accomplish evacuation in the most efficient manner.

- **Building Safety Team Members** will confirm to Campus Police (Pendleton, 864-646-1800; Anderson, 260-6718; Easley, 220-8989; Oconee, 613-1901) that each building has been evacuated and report any suspicious packages or bags seen while exiting.

- **Campus Police** will give Building Safety Team Members a notification that the emergency situation is over and can return to or exit building(s).
IN AN EMERGENCY TAKE ACTION

HOLD! In your room or area. Clear the halls.

OCCUPANTS
Clear the hallways and remain in room or area until the “All Clear” is announced
Do business as usual

STAFF
Close and lock door
Account for occupants and staff
Do business as usual

SECURE! Get inside. Lock outside doors.

OCCUPANTS
Return inside
Do business as usual

STAFF
Bring everyone indoors
Lock outside doors
Increase situational awareness
Account for occupants and staff
Do business as usual

LOCKDOWN! Locks, lights, out of sight.

OCCUPANTS
Move away from sight
Maintain silence
Do not open the door
Prepare to evade or defend

STAFF
Lock interior doors
Turn out the lights
Move away from sight
Do not open the door
Maintain silence
Account for occupants and staff
Prepare to evade or defend

EVACUATE! (A location may be specified)

OCCUPANTS
Evacuate to specified location
Bring your phone
Instructions may be provided about retaining or leaving belongings

STAFF
Lead evacuation to specified location
Account for occupants and staff
Notify if missing, extra or injured people

SHELTER! Hazard and safety strategy.

OCCUPANTS
Use appropriate safety strategy for the hazard

Hazard | Safety Strategy
--- | ---
Tornado | Evacuate to shelter area
Hazmat | Seal the room
Earthquake | Drop, cover and hold
Tsunami | Get to high ground

STAFF
Lead safety strategy
Account for occupants and staff
Notify if missing, extra or injured people

19) COMMUNICABLE DISEASES AND PANDEMICS
20) SEXUAL ASSAULT
1. **ACTIVE SHOOTER**

   Quickly determine the best way to protect your life using the Avoid, Deny, Defend method.

   **AVOID – Starts with your state of mind.**
   - Pay attention to your surroundings.
   - Have an exit plan.
   - Move away from the source of the threat as quickly as possible.
   - The more distance and barriers between you and the threat, the better.

   **DENY – When getting away is difficult or may be impossible.**
   - Keep distance between you and the source.
   - Create barriers to prevent or slow down the threat from getting to you.
   - Turn off the lights, remain out of sight by hiding behind large objects, and keep quiet. Be sure to silence phones.

   **DEFEND – Because you have a right to defend yourself.**
   - If you cannot avoid or deny be prepared to defend yourself.
   - Be aggressive and committed to the action.
   - Do not fight fairly – THIS IS ABOUT SURVIVAL.

   Call 911 and Campus Police at (864) 646-1800 when it is safe to do so.

2. **LOCKDOWN**

   An imminent threat of violence may be cause for a lockdown of all or part of campus. Some exterior doors will lock automatically. Emergency responders will lock others manually. The goal is to limit exposure of students, faculty, and staff to danger by preventing dangerous persons from entering campus buildings.

   **If a Lockdown is Ordered:**

   - Stay inside! Do not leave the building unless an imminently dangerous situation arises inside. If outside, seek shelter in the nearest building.

   - Take shelter in a lockable room if possible.

   - Close windows, shades, and blinds, and avoid being seen from outside the room if possible.

   - Monitor text messages and email for updates and further instructions. A description of any suspects involved will be disseminated as soon as possible via text and email.

   - Report any emergency or unusual activity to Campus Police.
• Use discretion in admitting anyone into a secure building. Require that all backpacks and other bags be left outside at least 30 feet from the building. Require that the person seeking shelter open all outer garments for visual inspection before allowing entry.

• Once in a secure location, do not leave until receiving a notification from Campus Police or a law enforcement officer that the lockdown is over and it is safe to exit the building(s).

3. **FIRE**

• Activate the fire alarm system by pulling a fire alarm station on your way out of the building.

• If time permits, stabilize lab environment, turn off stoves and ovens, and unplug or disable any device that could make a dangerous situation even worse.

• Leave the building via the nearest exit. Warn others as you leave.

• **DO NOT USE ELEVATORS!**

• Feel doors (for heat) before opening, and close doors and windows as you leave if safe to do so.

• Report the fire to Campus Police by calling (864) 646-1800 once outside.

• If trapped, keep the doors closed and place an article of clothing or towels under them to keep out smoke. Signal for help by hanging an object (e.g., a jacket or shirt) out the window to attract attention.

• Remain at least 300 feet outside of the building and await further instructions. Keep roadways open and beware of approaching emergency vehicles. Notify emergency responders of anyone trapped or any special conditions in the building.

• Do not go back in the building for any reason until an authorized safety official deems it safe to re-enter.

4. **BOMB THREAT**

Bomb threats usually come by telephone. If you receive a bomb threat call, remain calm and obtain as much information as possible from the caller.

• When will the bomb explode?

• What kind of bomb is it?

• What will cause it to explode?

• Where is it right now?
• What does it look like?
• Did you place the bomb?
• Who placed the bomb?
• Why did you place the bomb?
• How many bombs are there?
• What is your address?
• What is your name?

Notify Campus Police by calling (864) 646-1800 immediately to give the information you have obtained. Describe the caller’s voice, any background noises you heard, and the exact wording of the message.

Do not touch suspicious packages. Be sure to inform Campus Police of any suspicious packages, items, or people in the area.

Follow instructions from first responders regarding evacuation assembly areas.

5. **SUSPICIOUS PACKAGE**

• Do not open the suspicious item. If you have opened it, remain calm.

• **Notify Campus Police at (864) 646-1800 immediately.**

• Do not move the suspicious letter or package or examine it further.

• Keep others out of the area. Close off the area if possible.

• If possible, limit the use of two-way radios and cell phones near the suspicious item.

• If the package is leaking a substance or powder and you came into contact with the substance, keep your hands away from your eyes, nose, mouth, or any part of your face. Do not touch others or let others touch you.

• Wash your hands and arms from the elbow down with soap and hot water.

• Do not attempt to clean or cover anything that might have spilled from a package.

• Follow all instructions given by emergency responders.
A bomb threat could potentially be called in to any phone line at the College. Campus Police recommends employees print and keep visible a copy of the below bomb threat/suspicious package information sheet.

**BOMB THREAT PROCEDURES**
**TRI COUNTY TECHNICAL COLLEGE**

This quick reference checklist is designed to help employees and decision makers respond to a bomb threat in an orderly and controlled manner with law enforcement and first responders.

**Most bomb threats are received by phone. Bomb threats are serious until proven otherwise. Act quickly, but remain calm and obtain information on the check list**

**WHO DO I CALL?**
Campus Police @ 864-646-1800 or 911

**BOMB THREAT BY PHONE**

- Remain Calm, keep caller on the phone as long as possible. DO NOT HANG UP, even if the caller does
- Listen carefully, Be polite and show interest
- Try to keep the caller talking to learn more information
- If possible, write a note to a colleague to call authorities, or do so as soon as the caller hangs up.
- Of your phone has a display, copy the number and information that appears on the window display
- Write down as much information as possible on the checklist (try to get exact words)
- If the caller hangs up, DO NOT HANG UP, from a different phone, contact authorities immediately.

**THREAT BY NOTE OR**
Handle note as minimal as possible
Do not delete the email

**SIGNS OF A SUSPICIOUS PACKAGE**
No return address—Excessive postage—Stains—Strange odor - Strange sounds—Unexpected delivery—Poorly handwritten—Misspelled words—Incorrect titles—Foreign postage—Restrictive notes

Comprehensive Emergency Management Plan
6. **CHEMICAL SPILL**

- Notify Campus Police at (864) 646-1800 immediately.
- Do not attempt to clean up the spill.
- Remove yourself and others from the area.
- Close doors to isolate the area.
- If anyone had contact with the hazardous material, they should be isolated and await treatment by emergency personnel. Do not leave the site until you are cleared by emergency responders.
- **DO NOT PULL THE FIRE ALARM** unless there is a fire.
- Provide first responders with information about the spill, chemical, and the spill area.
- Evacuate the building if first responders issue an evacuation order.
- Re-enter the building only when a notification from Campus Police or law enforcement personnel instructs you to do so.

8. **EMERGENCY NOTIFICATION**

One or more of the following methods may be used to notify the College community of various emergency events that may impact students, employees, and visitors.

- **Regroup Alert**: Important emergency alerts, notifications, and updates are sent to all registered devices, including cell phone and email accounts. Students and employees are automatically enrolled in the Regroup Alert system, while parents can register by contacting Campus Police at (864) 646-1800, or accessing the link in the Campus Police section of the website.

- **Website**: Critical information is posted on the home page of the College’s public website ([www.tctc.edu](http://www.tctc.edu)) and may be viewed by anyone who accesses this website.

9. **MEDICAL EMERGENCIES**

- Do not move a seriously injured person unless there is a life-threatening situation.

- Call 911 or Campus Police at (864) 646-1800.

- Give your name, location, and telephone number.

- Give as much information as possible regarding the nature of the injury or illness, whether or not the victim is conscious, etc.

- Do not hang up until directed to do so by the emergency operator.

- Return to the victim; administer first aid, if you know how; and keep the victim as calm and comfortable as possible.

- Remain with the victim. A Campus Police Officer will respond immediately to the scene and will summon additional medical personnel if necessary.

10. **REPORTING CRIME**

All crimes should be reported to the Campus Police Department at (864) 646-1800. Campus Police personnel will respond and call for additional assistance, if necessary.

If you witness a crime in progress, call Campus Police immediately. Give your name, location, and phone number. Do not hang up until the dispatcher tells you to do so. Remain at the location until an officer contacts you, unless it is not safe to do so.
11. **SHELTER-IN-PLACE**

During certain emergency incidents (e.g., chemical releases, radioactive material releases, and possibly some weather incidents) persons may be advised to shelter-in-place rather than evacuate the building. These messages will be communicated by the Campus Safety Department. The following actions apply in a shelter-in-place situation:

**If a shelter-in-place is ordered:**

- If outside, seek shelter in the nearest building, preferably in an interior room with few windows.
- Allow access to others seeking shelter. Remember, a shelter-in-place order means there are dangerous environmental conditions but NOT any known threat of violent behavior. Allowing others into the building should not jeopardize your safety.
- Close all exterior doors, windows, and any other openings to the outside.
- Avoid overcrowding by selecting several rooms, if necessary.
- Monitor the College website (tctc.edu), text messages, and e-mail for further instructions.
- Report any emergency or unusual condition to Campus Police.
- Do not leave the building until receiving a notification from Campus Police or law enforcement personnel stating that the shelter-in-place order is over and it is safe to exit the building(s).

12. **WEATHER EMERGENCIES**

**INCLEMENT WEATHER**

Tri-County Technical College implements the following procedures for announcing operational changes during periods of inclement weather (e.g., snow, ice, flooding, etc.):

- The decision to delay or close the College due to inclement weather is made by senior College officials.
- Closings and delays are announced using the following methods:
  - Phone call, text message, and e-mail
  - College website (tctc.edu) and intranet portal (MyTCTC)
  - College social media accounts
  - Local media outlets
- Do not come to campus when a weather-related closing is announced. Employee access is limited to emergency management personnel. If a weather closing is expected, take any needed items from your office in advance as you may not be permitted to enter until the College re-opens.
TORNADO/SEVERE WEATHER

- **A TORNADO WATCH** is issued by the National Weather Service when tornadoes are possible in the area.

- **A TORNADO WARNING** is issued when a tornado has been sighted, or indicated by weather radar, in the area.

- Monitor local TV stations, email, text messages, and weather websites for severe weather updates.

- Be prepared to take shelter on the lowest level of your building if a tornado warning is issued.

- **DO NOT PULL THE FIRE ALARM** to alert others of a tornado warning. (Activating the fire alarm requires evacuation of the building.)

- Stay away from windows and exterior doors.

- Move to an interior hallway for shelter.

- Wait for an **“all clear”** notification stating that the shelter-in-place is over prior to returning to your work area or classroom.

- If outdoors, lie in a ditch, low-lying area, or crouch near a building if shelter is not available or if there is no time to get indoors.

**DO NOT ASSUME** others, especially students, heard the warning or know where to go or what to do. Please direct anyone you see to the appropriate shelter and instruct them how to safely take cover.

BUILDING SHELTER AREAS

If a **tornado warning** is issued, seek shelter immediately in the recommended tornado shelter for your campus/building listed below:

<table>
<thead>
<tr>

13. **PERSONS IN DISTRESS**

If you are in contact with a person who appears to be an *immediate threat* to his or her own safety or that of others, call 911 and then Campus Police at 864-646-1800.

**Quick reference for helping persons having difficulties:**

**Recognize Symptoms**
- Significant change in academic performance or classroom conduct.
- Unusual behavior or appearance.
- Traumatic event or change in relationships.
- Reference to suicide, homicide, or death.

**Respond to the Person**
- Speak privately with the individual.
- Directly and candidly discuss your observations and concerns.
- Offer support and assistance.

**Refer Students to the Student Development Office**
- Be caring, firm, and straightforward in your referral.
- Consider calling from your office or escorting the student to the Student Development Office.

**Refer Employees to the Human Resources Office**
- Be caring, firm, and straightforward in your referral.
• Consider calling from your office or escorting the employee to the HR Office.

Consult with On-Campus Resources – Discuss your concerns about a student with any of the following on-campus resources.
  • Student Development – (864) 646-1562
  • Campus Police – (864) 646-1800
  • TC Cares Team – (864) 646-1568
  • VP for Student Support and Engagement – (865) 646-1562

14. **UTILITY/PHONE/IT FAILURE**

Utility Failures
  • Immediately report utility failures during regular work hours (Monday-Thursday, 8:00 a.m.-5:00 p.m.; Friday, 8:00 a.m.-2:00 p.m.) to the Facilities Office at (864) 646-1770.

  • Immediately report utility failures after regular work hours, on weekends, and on holidays to Campus Police at (864) 646-1800.

Phone & IT Failures:
  • Call the IT Helpdesk at (864) 646-1779 during normal business hours to report an outage. If this number is not working, call the Campus Police alternate phone number listed below.

  • In the event of a campus-wide phone failure, Campus Police’s normal phone numbers will not work, including the emergency number. Campus Police’s alternate phone number in a power outage is (864) 245-0613.

15. **MEDIA CALLS**

The Public Information Officer (PIO) serves as the point of contact for all media inquiries. During an emergency situation, it is especially important that reporters be directed to the Public Information Officer. The PIO speaks on behalf of the College and has the most accurate and up-to-date information available about an incident. In addition, the PIO works closely with emergency responders to coordinate what information can or should be released to the general public.

When receiving any calls from a media representative, please take the following steps:

  • Direct all media inquiries to the Public Information Officer at (864) 646-1507.

  • To assist the Office of Public Relations in responding as quickly as possible, feel free to obtain the following information and forward it to the Public Information Officer:

    o The reporter’s name and phone number and date and time of call.
    o The media organization they represent.
    o The type of information they are seeking.
    o The reporter’s deadline.
• Regardless of the situation or what the media questions might be, never say “No Comment.” A better response is, “Thanks for calling. Allow me to refer you to our Public Information Officer, who handles media questions and they will be able to assist you.”

• Never talk “off the record” with the media. Always assume that they will use any information that they obtain in their report.

16. **ELEVATOR FAILURE**

If you become trapped in an elevator, the following actions should be taken:

• DO NOT panic. Use the elevator phone or your cell phone to call Campus Police for assistance.

• Press the ALARM or HELP button to notify others who may be nearby.

• DO NOT attempt to force the door open or attempt to climb out of the elevator car. The elevator may re-start without warning.

• Your best course of action is to relax, get comfortable, and wait for professional assistance. Even if the air temperature feels warm, there is plenty of air circulating in the elevator and throughout the shaft.

• Provide your name and the total number of people in the elevator to Campus Police.

• Report any injuries, medical conditions, or disabilities.

• Campus Police will contact Facilities and/or the fire department to get you out.

17. **HOSTAGE SITUATION**

**IF YOU HEAR OR SEE A HOSTAGE SITUATION:**

• Immediately remove yourself from any danger.

• Immediately notify Campus Police at (864) 646-1800 or call 911.

• Be prepared to provide the following information:
  
  o Location and room number of incident.
  o Number of possible hostage takers.
  o Physical description and names of hostage takers, if possible.
  o Number of possible hostages.
  o Any weapons the hostage takers may have.
IF YOU ARE TAKEN HOSTAGE:

- Remain calm, be polite and cooperate with your captors.
- **DO NOT attempt escape** unless there is an extremely good chance of survival. It is safer to be submissive and obey your captors.
- Speak normally. **DO NOT** complain and avoid being belligerent or argumentative.
- **DO NOT** draw attention to yourself with sudden body movements, statements, comments or hostile looks.
- Observe the captors and try to memorize their physical traits, voice patterns, clothing, or other details that can help provide a description later.
- Avoid getting into political or ideological discussions with the captors.
- Try to establish a relationship with your captors and get to know them. Captors are less likely to harm you if they respect you.
- If forced to present terrorist demands to authorities, either in writing or on tape, state clearly that the demands are from your captors. Avoid making a plea on your own behalf.
- Try to stay low to the ground or behind cover from windows or doors, if possible.

IN A RESCUE SITUATION:

- **DO NOT RUN.** Drop to the floor and remain still. If that is not possible, cross your arms, bow your head, and stand still. Make no sudden moves that a responder may interpret as hostile or threatening.
- Wait for instructions and obey all instructions you are given.
- Do not be upset, resist, or argue if a rescuer isn’t sure whether you are a terrorist or a hostage.
- Even if you are handcuffed and searched, **DO NOT resist.** You will be taken to a safe area, where proper identification and status will be determined.

18. **COMMUNICABLE DISEASES AND PANDEMICS**

According to the Centers for Disease Control and Prevention (CDC), a pandemic is a world-wide
disease outbreak that will affect an undetermined number of individuals. A pandemic occurs when a new virus emerges for which people have little or no immunity, and for which there is no vaccine. The disease spreads easily from person-to-person, causes serious illness or fatality, and can sweep across large geographic areas in a very short time.

**Action Steps:**

Based on the nature and scope of the situation, the College’s Emergency Management Team will take the necessary steps, including but not limited to, canceling classes, closing the College, etc. The College’s response will be guided by carefully planned procedures and protocols, recognizing that any emergency will also demand flexibility and agility in a rapidly evolving situation, with a concern for protection of human life and safety first and then for continuity of operations, including continuity of instruction.

**Step 1.** If a faculty or staff member is suspected of having a pandemic type condition, or has reported that condition to you, please notify the VP of Human Resources at 864-646-1790 or 864-646-2027. If the person suspected of having a pandemic condition is a student, notify the VP of Student Support and Engagement at 864-646-1562 or 864-646-1605.

**Step 2.** When speaking with or learning of the affected individual(s), gather as much information as possible. Obtain their name and phone number. Inquire about how and when they were diagnosed with the disease(s), names of individuals they have been in contact with, areas of the College they may have frequented since learning of their condition, etc.

**Step 3.** Request assistance from the TCTC Maintenance and Housekeeping staff to disinfect all potentially affected areas. Cleansing should include washing all hard surfaces with a 2% chlorine (bleach) solution, or approved sanitizing agents. Prevent and/or limit further access to any contaminated area until appropriate sanitation measures can be completed.

**Step 4.** Request that the individual desist from attending classes, coming to work, or otherwise coming in contact with other persons for a period of least one week, or as prescribed by their doctor or other health officials. If the affected individual is a student, ensure that the Office of Student Affairs and appropriate academic leaders have been properly and timely informed of the situation so that student attendance issues can be addressed.

**Step 5.** For additional guidance on how to detect, respond, and react to a pandemic condition, please contact Human Resources at 864-646-2027. Also, refer to TCTC’s Policy and Procedure addressing Communicable Diseases and Pandemics. A copy of that policy can be obtained from HR or [http://www.sctechsystem.com/faculty-and-staff/policies-and-procedures/policies/8-7-104.pdf](http://www.sctechsystem.com/faculty-and-staff/policies-and-procedures/policies/8-7-104.pdf).

19. **SEXUAL VIOLENCE**

**Sexual Violence Defined** - Sexual violence is a broader term than sexual assault. The term encompasses sexual homicide, rape, incest, molestation, fondling, stalking, intimate partner violence, and verbal assault of a sexual nature. Sexual violence includes creating an environment that feels unsafe based on sexual messages or images. Sexual violence is a sexual act that is completed or attempted against a victim’s will or when a victim is unable to consent due to age, illness, disability, or the influence of alcohol or other drugs. The act may involve actual or threatened physical force, use of weapons, coercion, intimidation, or pressure.

Sexual violence includes, but is not limited to, the following acts:
- Gender-Based Harassment
- Sexual Harassment
- Sexual Assault
- Sexual Exploitation, Coercion
- Stalking

**Consent** - Consent is often the central issue in sexual violence cases. Each participant in a sexual encounter is expected to obtain and give consent to engage in all forms of sexual activity:

- Consent is an explicitly communicated, reversible, mutual agreement in which all parties are capable of making a decision.
- Consent is informed, voluntary, and actively given.
- Consent exists when all parties exchange mutually understandable affirmative words or behavior indicating their agreement to participate voluntarily in sexual activity.
- Consent may not be inferred from silence, passivity, lack of resistance, or lack of an active response alone.
- A person who does not physically resist or verbally refuse sexual activity is not necessarily giving consent.
- An individual who is physically incapacitated from alcohol or other drug consumption (voluntarily or involuntarily), or is unconscious, unaware, or otherwise physically impaired is considered unable to give consent.
- Being intoxicated or impaired by drugs or alcohol is never an excuse for sexual assault, sexual harassment, or other sexual misconduct and does not diminish one’s responsibility to obtain consent.
- Just because someone has consented to sex in the past, does not mean they are consenting now.

**TITLE IX, NOTICE OF NON-DISCRIMINATION**

- Sexual violence is a form of gender-based discrimination prohibited by Title IX.
- Questions about Title IX reporting and investigation should be referred to the Title IX Coordinator, Marcia Leake, VP for Human Resources (mleake1@tctc.edu or 864-646-1790), or the Deputy Title IX Coordinator, Linda Jameison, VP for Student Support and Engagement (ljameiso@tctc.edu or 864-646-1562).
• A Title IX investigation is required for any reported concern, and is separate from a criminal investigation.

• A victim of sexual violence does not need to file a police report, and throughout the investigation process will be provided information on how to make that decision.

WHAT TO DO IN THE EVENT OF A SEXUAL ASSAULT:

• Do not change your clothing.

• Do not shower, wash, douche, or use the toilet prior to a medical exam.

• Do not apply medication to injuries unless absolutely necessary.

• Do not disturb anything in the area where the assault occurred.

• Do not drink or chew gum.

• Do not store your clothing in anything other than a plastic bag.

• Get medical attention as soon as possible.

• Contact a local hospital or call 911 and request EMS respond to assist you. Medical professionals are available 24 hours a day, 7 days a week.

• Medical attention at the local hospital is required to preserve evidence should you seek criminal prosecution. It is important to know that, if you go to the hospital, the local police will be called.

• If you suspect that you may have been given a predatory rape drug, please give health care professionals this information. A urine sample can be collected within 72 hours of a sexual assault for predatory drug testing. The cost for this test is paid for by the College.

• Seek assistance at the Student Development Office at (864) 646-1569. You will be able to discuss your options and receive support as needed.

• Filing a report with Campus Police at (864) 646-1800 and/or the police department where the incident took place is the victim’s option.

*End of Document*
Appendix A – Evacuation Routes
Ruby Hicks Evacuation Route:
In the event of a fire or evacuation from Ruby Hicks, all occupants will exit the building and assemble in parking lot A for upper floors, and parking lot C for lower floors.

Cleveland Hall Evacuation Route:
In the event of a fire or evacuation from Cleveland Hall, all occupants will exit the building and assemble in parking lot H 1.
Fulp Hall Evacuation Route:
In the event of a fire or evacuation from Fulp Hall, all occupants will exit the building and assemble in parking lot A if you are on the upper floors, and parking lot E or Halbert Hall area if you are on the lower floors.

Halbert Hall and Physical Plant Evacuation Route:
In the event of a fire or evacuation from Halbert Hall and Physical Plant, all occupants will exit the building and assemble in parking lot G.
**IBDC Evacuation Route:**
In the event of a fire or evacuation from IBDC, all occupants will exit the building and assemble across the street in parking lot E.

**Oconee Evacuation Route:**
In the event of a fire or evacuation from Oconee Hall, all occupants will exit the building and assemble in parking lot H 4.
Pickens Hall Evacuation Route:
In the event of a fire or evacuation from Pickens Hall, all occupants will exit the building and assemble in parking lot H 1 or parking Lot A.

Wilson Hall Evacuation Route:
In the event of a fire or evacuation from Wilson Hall, all occupants will exit the building and assemble in parking lot H 4.
Student Success Center Evacuation Route:
In the event of a fire or evacuation from SSC, all occupants will exit the building and assemble in parking lot A for upper floors, and parking lot C for lower floors.

Anderson and Miller Halls Evacuation Route:
In the event of a fire or evacuation from Anderson Hall or Miller Hall, all occupants will exit the building and assemble in parking lot A.
Anderson Campus Evacuation Route:
In the event of a fire or evacuation from the Anderson Campus, all occupants will exit the building and assemble in the parking lot west of the building and closest to Michelin Blvd.

Easley Campus Evacuation Route:
In the event of a fire or evacuation from the Easley Campus, all occupants will exit the building and assemble in the parking lot area closest to Powdersville Rd.
Oconee Campus Evacuation Route:
In the event of a fire or evacuation from the Oconee Campus, all occupants will exit the building and assemble in the parking lot area farthest from the building.

During any evacuation, no one is allowed to re-enter the building without receiving instruction from Campus Police.
