

Environmental and Natural Resources Curriculum Worksheet (2022-2023)

Natural Resources Management Concentration

This worksheet outlines the required courses for this major. Students are expected to be familiar with general education and major-specific requirements for their intended major as outlined in the Clemson Undergraduate Catalog. Additionally, students must satisfy any Tri-County prerequisites for the courses below. To complete Bridge program requirements, students must earn 30 credits at Tri-County and a 2.5 GPA during their Bridge year (fall, spring, and optional summer, if needed). Students should consult the backside of this worksheet, the Undergraduate Catalog, and the Bridge Academic Guide for Clemson course equivalencies and alternative courses if students wish to enroll in other courses or if any of the following requirements have been met through dual enrollment or AP/IB credit. Advising worksheets are supplemental planning aids and are for informational purposes only.

² Select any course from the Bridge Academic and Advising Guide that fulfills the Social Science requirement. Note, this course must be in a different discipline than the course chosen to fulfill the other 3 credits of Social Science (HIS 201 or PSC 201).

³ Take an additional course listed in the Bridge Student Academic and Advising Guide that will transfer to Clemson. If not utilized with Social Science, HIS 201 and PSC 201 strongly recommended as they satisfy the REACH Act for graduation.
